The Tripartite's Commitment Providing multi-sectoral, collaborative leadership in addressing health challenges
(4 pp.)

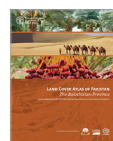

NEW BOOKS AND BRIEFS

AGRICULTURE

Analyse des dépenses publiques en soutien à l'agriculture et l'alimentation au Bénin sur la période 2008–2015

This document analyses the evolution of public spending in support of food and agriculture in Benin, particularly in relation to research, subsidies and infrastructure, and makes recommendations for improved resource allocation.
(40 pp., available only in French) Suivi et analyse des politiques agricoles et alimentaires

Land Cover Atlas of Pakistan: The Balochistan Province

Using satellite data and images, this atlas provides land cover information in aggregated and cartographic form for numerous categories of cultivated land, natural vegetation and non-vegetated areas, as well as human settlement areas.
(88 pp.) FAO, SUPARCO & Crop Report Service

Operationalizing the Regional Collaborative Platform of the Water Scarcity Initiative to address water consumption, water productivity and drought management in agriculture

In a context of freshwater scarcity in the Near East and North Africa region, this report covers water consumption, crop water productivity and drought management issues. It suggests ways to reduce water use and improve accounting and tracking.
(97 pp.)

ANIMAL PRODUCTION AND HEALTH

Communautés locales et utilisation durable de la faune en Afrique centrale

A review of the economic and social impacts of rural hunting, with recommendations for achieving sustainable wildlife management, such as improving legal frameworks, integrating the wild meat sector into food security programmes and building partnerships.
(266 pp., available only in French) FAO, CIFOR & CIRAD

ECONOMIC AND SOCIAL DEVELOPMENT

Developing an indicator of price anomalies as an early warning tool: A compound growth approach

This document presents the methodology for the Indicator of Price Anomalies (IPA) developed by FAO's Global Information Early Warning System. It identifies abnormal prices and evaluates growth in prices in a particular month over many years.
(26 pp.)

Ending poverty and hunger by investment in agriculture and rural areas

This brochure shows how FAO helps countries increase public, private and rural investment in agriculture to eradicate hunger and poverty. Investment increases farmers' productivity and income, diversifies income through value chain development and creates better jobs for the rural poor.
(20 pp.)

FAO's Multipartner Programme Support Mechanism (FMM): 2016 Annual Report

The publication presents the results achieved by the FMM Programme at country, regional and global levels, including food security measurement innovation, improvement of agricultural practices and climate change adaptation.
(135 pp.)

FAO/WFP Crop and Food Security Assessment Mission to the Syrian Arab Republic

A joint FAO/WFP Mission in May 2017 estimated crop production and assessed the overall food security situation. Despite limited access, high food prices and internal displacements, findings show an improvement in wheat production and trade.
(56 pp.)

On the costs of being small: Case evidence from Kenyan family farms

Using the Kenya Integrated Household Budget Survey, this paper analyzes allocative efficiency of major input factors for smallholders. It underlines the negative effects of market entry barriers, poor institutional frameworks and lack of resources (e.g. fertilizers).
(60 pp.) FAO Agricultural Development Economics Working Paper

Responsible governance of tenure and the law

Aimed at legal professionals, this guide addresses the legal value of the Voluntary Guidelines on the Responsible Governance of Tenure. It reviews the legislative process, from assessment and law-making to implementing legislation and settling disputes.
Now available in Arabic.
(136 pp., also available in [English](#) and [French](#))

Targeting farmers in institutional procurement programmes

In a context of reduced production and prevalent food insecurity, this paper overviews the Purchase from Africans for Africa (PAA) programme, aimed at supporting local production, improving family farmer incomes and strengthening school feeding programmes.
(24 pp.) FAO & UNDP

The 2012 crisis in Mali and its implications on resilience and food security

This paper measures econometrically the impact of conflict in Mali, namely the 2012 Tuareg rebellion and Al Qaeda insurgency, on resilience and food security. Conflict particularly affected sanitation and public health by reducing access to basic services.
(44 pp.) FAO Agricultural Development Economics Working Paper

FISHERIES AND AQUACULTURE

[Greenhouse gas emissions from aquaculture](#)

This study of three aquaculture systems (tilapia, carps and striped catfish) aims to promote cost-effective aquaculture and reduce GHG emissions, through better water management, low environmental impact materials and biosecurity measures. (110 pp.)

[Report of the Fifth Global Fisheries Enforcement Training Workshop \(GFETW\)](#)

This report assesses enforcement against illegal fishing in New Zealand. It includes case studies covering international and regional cooperation, capacity building, and implementation of port-state measures, as well as data analysis and risk assessment. (158 pp.) FAO Fisheries and Aquaculture Report

[Report of the workshop to review orange roughy acoustics data](#)

A review of the performance of acoustics data, this report includes recommendations (regarding selection criteria, reporting and analysis) for surveys on key deep-sea species and the technologies used for their assessment. (20 pp.) Fisheries and Aquaculture Report

[World aquaculture 2015: A brief overview](#)

An overview of the status and trends in global aquaculture in six regions, including a description of farming systems and practices, an analysis of employment and social development, and an evaluation of impact on food security and nutrition. (47 pp.) FAO Fisheries and Aquaculture

FOOD SAFETY AND NUTRITION

[Compendio de indicadores para la agricultura que tiene en cuenta la nutrición](#)

This compendium presents basic indicator categories, describes what each indicator measures (e.g. diet, food access, women's empowerment), its application and how it is collected and analysed. It also provides relevant technical resources. Now available in Spanish. (56 pp., also available in [English](#))

[Report on the Second FAO Africa Regional Nutrition Coordination and Programming Consultation](#)

Guidance to reinforce technical capacity for nutrition-sensitive programming and mainstreaming into policies and investment plans. Recommendations include ensuring participation of nutrition stakeholders and disseminating FAO's vision. (Accra, 54 pp.)

GENDER

[Women's empowerment in aquaculture](#)

This publication addresses both the positive outcomes and limitations of women's empowerment in aquaculture, including gender roles, participation, social and economic outcomes and costs of participation. (128 pp.) FAO & International Center for Living Aquatic Resources Management (ICLARM)
