**NEW BOOKS AND BRIEFS**

**AGRICULTURE**

**Facilitators' guide book for farmers' field schools**  
This document offers technical guidance in establishing and managing farmers' field schools and supporting local farmers in rice crop management, from testing soil texture and seedling preparation to water management and yield calculation. (Apia, 48 pp.)

**Options for reducing fertilizer prices for smallholder farmers in Tanzania – Policy report**  
This report analyses and recommends appropriate policy options in a context of budget constraints, including price subsidies, tax reduction, and removal of excessive fertilizer licensing, to increase access to inputs and raise agricultural productivity. (34 pp.) **Monitoring and Analysing Food and Agricultural Policies**

**Territorial tools for agro-industry development**  
This sourcebook presents five development programmes (agrocorridors, agro-based clusters, agro-industrial parks, agro-based special economic zones, and agribusiness incubators) for promoting agribusiness investments and improving competitiveness. (398 pp.)

## **ANIMAL PRODUCTION AND HEALTH**

### **Africa Sustainable Livestock 2050**

In light of projected increases in demand for animal source foods in Africa, this report presents the consensus reached at the ASL2050 meeting to gather qualitative and quantitative data on livestock systems and ensure sustainable livestock development. (36 pp.) **Animal Production and Health Report**

## **CLIMATE CHANGE**

### **The work of FAO to enhance national capacities to report on climate change**

This infographic booklet shows how FAO assists member countries in implementing the Measurement, Reporting and Verification (MRV) framework, through GHG estimates and reporting, quality assurance and control, and data collection and analysis. (20 pp.)

### **Toolkit for the application of Green Negotiated Territorial Development**

This toolkit provides methods for implementing the GreenNTD approach, from agenda setting to negotiating a Socio-Ecological Territorial Agreement (SETA), in order to build resilient natural resources and promote sustainable land management practices. (100 pp.) **Land and Water Division Working Paper**

### **Unlocking the potential of soil organic carbon – Outcome document of the Global Symposium on Soil Organic Carbon**

This document presents recommendations reached at the Symposium on Global Soil Organic Carbon to preserve and monitor SOC, including measuring SOC stocks, fostering SOC sequestration, and supporting appropriate land management practices. (50 pp.)

## **ECONOMIC AND SOCIAL DEVELOPMENT**

### **Food Price Monitoring and Analysis Bulletin No. 4, 10 May 2017**

The FPMA Bulletin reports on recent food price developments at world, regional and country levels with a focus on developing countries. This issue features international cereal prices and domestic price warnings, notably in East Africa and Latin America. (18 pp., forthcoming also in French and Spanish)

### **The household and individual-level economic impacts of cash transfer programmes in sub-Saharan Africa – Synthesis report**

Using qualitative research and econometric analysis, this report analyses how unconditional cash transfer programmes impact crop production, agricultural inputs, labour allocation, risk management and social networks in seven sub-Saharan countries. (66 pp.)

## **FISHERIES AND AQUACULTURE**

### **FAN – FAO Aquaculture Newsletter No. 56, March 2017**

This issue of FAN includes global aquaculture statistics; updates and events by region; and thematic articles covering ornamental species aquaculture, the role of fish in food security and nutrition, and more. (66 pp.)

### **Towards the implementation of the SSF Guidelines in South Asia**

This publication gives an overview of the small-scale fisheries sector in South Asian countries and proposes actions to support SSF implementation, through SSF focal points in fisheries administrations, secure funding, and public-private partnerships. (53 pp.) **Fisheries and Aquaculture Proceedings**

## **FOOD SAFETY AND NUTRITION**

### **Dietary patterns of households in Samoa**

This paper identifies which household factors (e.g. age, education, total income) explain low nutrition values and proposes interventions to improve food security, such as school feeding programmes or increasing loans to the agricultural sector. (Apia, 108 pp.)
