4	under required citation in copyright page	none	This publication was developed in the context of the Inter-Organization Programme for the Sound Management of Chemicals (IOMC), which was established in 1995 following recommendations made by the 1992 United Nations Conference on Environment and Development to strengthen cooperation and increase international coordination in the field of chemical safety. The participating organizations are the Food and Agriculture Organization of the United Nations (FAO), the International Labour Organization (ILO), the Organisation for Economic Co-operation and Development (OECD), the United Nations Environment Programme (UNEP), the United Nations Industrial Development Organization (UNIDO), the United Nations Institute for Training and Research (UNITAR), the World Health Organization (WHO), the World Bank, and the United Nations Development Programme (UNDP).The purpose of the IOMC is to promote coordination of the policies and activities pursued by the participating organizations, jointly or separately, to achieve the sound management of chemicals in relation to human health and the environment. The contents do not necessarily reflect the views or stated policies of individual IOMC participating organizations.

please note this disclaimer is present in previous International Code of Conduct publications and corrigendum is being requested to match previous publications.
