CAB Abstracts with Full Text is now available directly through the FAO Library Discovery

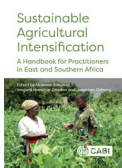

CAB Abstracts is a database of applied life sciences literature, covering a variety of FAO subject areas, such as agriculture, the environment, veterinary sciences, applied economics, fisheries, aquaculture, nutrition, and many others (more [info](#)). While FAO has had access to CAB Abstracts for several years, this new, full-text subscription includes access to over 1,250 full-text journals. The database also includes abstracts, conference proceedings, reports, and grey literature dating back to 1973. A title list is available [here](#).

CAB Abstracts with Full Text can be searched directly [here](#) or through the top menu item ‘Databases’ of the [Discovery](#).

ARTICLES BY FAO AUTHORS

An overview of the latest journal articles and some other document types (editorial material, letters, book chapters and conference proceedings) written or cowritten by authors affiliated with FAO. The main source of information is the Web of Science ([WoS](#)), the world's largest publisher-neutral abstract and citation platform of leading peer-reviewed international and regional scientific literature. *FAO Style* (2022) is used as the citation style.

Are you planning to publish an article?

Please ensure that you are familiar with [FAO's Open Access policy](#), as well as OCC policies and procedures for publishing FAO content in external publications. Please contact Copyright@fao.org before publishing articles externally. Copyright will negotiate a license agreement on your behalf, to ensure FAO retains the right to disseminate the content.

Did you recently publish an article?

Please send the file to document-repository@fao.org and the citation to fao-library-reference@fao.org and we will add the article to the Library's newsletter.
