Presentation of the Toolbox
General presentation

The Toolbox is an online database of resources on the sustainable use of PGRFA. It contains publications, reports, research and studies, and other relevant information resources from various organizations and bodies worldwide, including research and academic institutions, intergovernmental bodies, and national and international agricultural research institutions.

FOR WHOM?

for anyone seeking information or guidance on policies, strategies and activities that can promote and enhance the sustainable use of PGRFA, particularly at national and local levels.
2009 GB requested the Secretary to clarify the notion of a toolbox

2011 GB requested the Secretary to develop a toolbox

2015 Presentation of the structure, contents of the Toolbox to the GB

2017 Launch of the Toolbox for Sustainable Use of PGRFA

2022/2023 New prototype, launched in March 2023

Historic
