

## Engaging stakeholders to end child labour in agriculture

© FAO/Riccardo Gangale

This course demonstrates how to carry out a stakeholder analysis to identify some of the relevant actors who can address child labour in farming, livestock, forestry and fisheries. It also provides suggestions on how to coordinate with these stakeholders in design, implementation and monitoring of initiatives that can contribute to the overall reduction of child labour in agriculture.

1.5 hours

Available in English

### You will learn about

- How to identify the main stakeholders involved in child labour issues and undertake a stakeholder analysis
- How each stakeholder group can be engaged in and contribute to the elimination of child labour
- The importance of collaboration among different stakeholders and the need of coordination
- Different mechanisms or tools available at national or district level

Digital badge

## Who is the course for?

The course will contribute to the capacity development of policy makers and advisors of agricultural related policy; agricultural programme designers and implementers; agricultural producer organizations; agricultural researchers; and agricultural statisticians who wish and need to know more about tackling child labour in agriculture.

## Key partners

This course was developed by the Food and Agriculture Organization (FAO) in collaboration with the International Labour Organization (ILO). It was co-funded by the Kingdom of the Netherlands.

Goal of the programme is to:

- raise awareness about the importance of addressing child labour in the agricultural sector
- to provide concrete suggestions to be applied in real life agricultural policy and programming situations
