

Food and Agriculture
Organization of the
United Nations

The International Treaty

ON PLANT GENETIC RESOURCES
FOR FOOD AND AGRICULTURE

Second Reporting Cycle
Report on the implementation of the International
Treaty on Plant Genetic Resources for Food and
Agriculture (ITPGRFA)

EGYPT

(24 August 2022)

STANDARD REPORTING FORMAT
COUNTRY REPORT ON COMPLIANCE – ITPGRFA

Name and contact details of the reporting officer:

Institution: National Genebank

Country: Arab Republic of Egypt

Date of submission: 08/2022

Article 4: General Obligations

1. Are there any laws, regulations procedures or policies in place in your country that implement the Treaty?

- Yes
- No

If your answer is 'yes', please provide details of such laws, regulations, procedures or policies:

The National Genebank was established to be responsible for the implementation of the ITPGRFA, and genetic resources for food and agriculture are exchanged in accordance with the SMTA of the ITPGRFA. A proposal for a law on the exchange of genetic resources for food and agriculture has also been prepared for submission to the parliament.

2. Are there any other laws, regulations, procedures or policies in place in your country that apply to plant genetic resources?

- Yes
- No

If your answer is 'yes', please provide details of such laws, regulations, procedures or policies:

3. Is there any law, regulation, procedure or policy in place in your country that needs to be adjusted / harmonized¹ to ensure conformity with the obligations as provided in the Treaty?

- Yes
- No

If your answer is 'yes', please provide details of such adjustments and any plans to make those adjustments:

¹ For the purpose of this report, a Contracting Party may choose whichever term (adjusted or harmonized) is appropriate in relation to their legal systems

Article 5: Conservation, Exploration, Collection, Characterisation, Evaluation and Documentation of Plant Genetic Resources for Food and Agriculture

4. Has an integrated approach to the exploration, conservation and sustainable use of plant genetic resources for food and agriculture (PGRFA) been promoted in your country?

Yes

No

5. Have PGRFA been surveyed and inventoried in your country?

Yes

No

If your answer is 'yes', please provide details of your findings, specifying species, sub-species and/or varieties, including those that are of potential use:

Nearly twenty thousand genetic resources have been collected

If your answer is 'no', please indicate:

Any difficulties encountered in surveying or inventorying PGRFA;

Any action plans to survey and inventory PGRFA;

The most important PGRFA that should be surveyed and inventoried:

6. Has any threat to PGRFA in your country been identified?

Yes

No

If your answer is 'yes', please indicate:

The species, subspecies and/or varieties subject to such threats;

The sources (causes) of these threats;

Any steps taken to minimise or eliminate these threats;

Any difficulties encountered in implementing such steps:

7. Has the collection of PGRFA and relevant associated information on those plant genetic resources that are under threat or are of potential use been promoted in your country?

Yes

No

If your answer is 'yes', please provide details of the measures taken:

8. Have farmers and local communities' efforts to manage and conserve PGRFA on-farm been promoted or supported in your country?

Yes

No

If your answer is 'yes', please provide details of the measures taken:

9. Has in situ conservation of wild crop relatives and wild plants for food production been promoted in your country?

Yes

No

If your answer is 'yes', please indicate whether any measures have been taken to:

Promote in situ conservation in protected areas;

Support the efforts of indigenous and local communities.

If such measures have been taken, please provide details of the measures taken:

10. Are there any ex situ collections of PGRFA in your country?

Yes

No

If your answer is 'yes', please provide information on the holder and content of such collections:

There are collections of plant genetic resources such as those deposited in the National Genebank and the Faculty of Agriculture, Cairo University

11. Has the development of an efficient and sustainable system of ex situ conservation of PGRFA been promoted in your country?

Yes

No

If your answer is 'yes', please indicate the measures taken to promote ex situ conservation, in particular any measures to promote the development and transfer of technologies for this purpose:

The National Genebank was established to be responsible for the ex situ conservation of plant genetic resources for food and agriculture (in rooms for conservation at temperatures -5 C, +5 C and -20 C, as well as conservation at very low temperatures -196 C in liquid nitrogen and in situ conservation.

12. Has the maintenance of the viability, degree of variation, and the genetic integrity of ex situ collections of PGRFA been monitored in your country?

Yes

No

If your answer is 'yes', please provide details of the main conclusions of these monitoring activities:

Yes, plant genetic resources for food and agriculture as well as their vitality are monitored and the vitality of these resources is periodically renewed, so that the vitality of any genetic resource is not less than 85%, and their diversity and genetic integrity are confirmed through molecular genetics laboratories and cell genetics laboratory.

13. Has your country cooperated with other Contracting Parties, through bilateral or regional channels, in the conservation, exploration, collection, characterization, evaluation or documentation of PGRFA?

Yes

No

If your answer is 'yes', please indicate the other Contracting Parties with whom the cooperation was undertaken (where additional to cooperation through the Governing Body or other Treaty mechanisms) and, where possible, details of any relevant projects:

Article 6: Sustainable Use of Plant Genetic Resources for Food and Agriculture

14. Are there any policy and legal measures² in place in your country that promote the sustainable use of PGRFA?

- Yes
- No

If your answer is 'yes', please indicate whether such policy and legal measures include:

Pursuing fair agricultural policies that promote the development and maintenance of diverse farming systems that enhance the sustainable use of agricultural biological diversity and other natural resources;

Strengthening research that enhances and conserves biological diversity by maximizing intra- and inter-specific variation for the benefit of farmers;

Promoting plant breeding efforts, with the participation of farmers, that strengthen the capacity to develop varieties particularly adapted to social, economic and ecological conditions, including in marginal areas;

Broadening the genetic base of crops and increasing the range of genetic diversity available to farmers;

Promoting the expanded use of local and locally adapted crops, varieties and underutilised species;

Supporting the wider use of diversity of varieties and species in on-farm management, conservation and sustainable use of crops and creating strong links to plant breeding and agricultural development;

Reviewing and adjusting breeding strategies and regulations concerning variety release and seed distribution.

If such policy and legal measures are in place, please provide details of the measures taken and any difficulties encountered in implementing them:

The research aiming to preserve and enhance the biodiversity is being expanded through the National Genebank Action Plan as well as the research related to its promotion through the National Genebank at the Agricultural Research Center.

² For the purpose of this report, legal measures may include regulations.

Article 7: National Commitments and International Cooperation

15. Has the conservation, exploration, collection, characterization, evaluation, documentation and sustainable use of PGRFA been integrated into your country's programmes and policies?

Yes

No

If your answer is 'yes', please provide details of the integration of such activities:

Conservation

Exploration

Collection

Characterization

Evaluation

Documentation

Sustainable use

Please indicate into which type of programmes and policies:

Agriculture and rural development

Food security

Biodiversity conservation

Climate change

Other

Additional details:

16. Has your country cooperated with other Contracting Parties, through bilateral or regional channels, in the conservation and sustainable use of PGRFA?

Yes

No

If your answer is 'yes', please indicate whether the aim of such cooperation is to:

Strengthen the capability of developing countries and countries with economies in transition with respect to conservation and sustainable use of PGRFA;

Enhance international activities to promote conservation, evaluation, documentation, genetic enhancement, plant breeding, seed multiplication, and sharing, providing access to and exchanging PGRFA and appropriate information and technology, in conformity with the Multilateral System of Access and Benefit-Sharing under the Treaty.

If, in addition to cooperation through the Governing Body or other Treaty mechanisms, your country has cooperated with other Contracting Parties directly or through FAO and other relevant international organizations, please indicate such other Contracting Parties and, where possible, details of any relevant projects:

Article 8: Technical Assistance

17. Has your country promoted the provision of technical assistance to developing countries and countries with economies in transition, with the objective of facilitating the implementation of the Treaty?

Yes

No

Not applicable

If your answer is 'yes', please provide details of the measures taken:

Exchange of information

Access to and transfer of technology

Capacity building

Please explain:

18. Has your country received technical assistance with the objective of facilitating the implementation of the Treaty?

Yes

No

Not applicable

If your answer is 'yes', please provide details of such technical assistance:

Exchange of information

Access to and transfer of technology

Capacity building

Please explain:

Some candidates from the National Genebank staff attended workshops on DSI, genebanks and databases management.

Article 9: Farmers' Rights

19. Subject to national law, as appropriate, have any measures been taken to protect and promote farmers rights in your country?

Yes

No

If your answer is 'yes', please indicate whether such measures were related to:

Recognition of the enormous contribution that local and indigenous communities and farmers of all regions of the world have made and will continue to make for the conservation and development of plant genetic resources;

The protection of traditional knowledge relevant to PGRFA;

The right to equitably participate in sharing benefits arising from the utilisation of PGRFA;

The right to participate in making decisions, at the national level, on matters related to the conservation and sustainable use of PGRFA;

Any rights that farmers have to save, use, exchange, and sell farm-saved seed / propagating material.

If such measures were taken, please provide details of the measures taken and any difficulties encountered in implementing them:

The Egyptian agricultural law guarantees to farmers the conservation, propagation, use and exchange of seeds owned within the area where they live.

Article 11: Coverage of the Multilateral System

20. Has your country notified all PGRFA listed in Annex I to the Treaty that are under the management and control of your Government and in the public domain as included in the Multilateral System of Access and Benefit-Sharing (MLS)?

- All
- Partially
- None

If your answer is 'all', please provide details of any difficulties encountered in including Annex I PGRFA in the MLS:

If your answer is 'partially', please provide details of:

The extent to which Annex I PGRFA have been included in the MLS;

The crops that have been included in the MLS; and

The difficulties encountered in including Annex I PGRFA in the MLS:

If your answer is 'none', please indicate the difficulties encountered in including Annex I PGRFA in the MLS:

- Lack of guidelines for the identification and inclusion of material;
- There is no national genebank;
- Lack of catalogue of PGRFA in the country
- Lack of specialised human resources;
- Limited economic resources and the need for capacity building;
- Other, please explain

21. Has your country taken measures to encourage natural and legal persons within your jurisdiction who hold Annex I PGRFA to include those resources in the MLS?

- Yes
- No

If your answer is 'yes', please provide details of:

- The natural or legal persons within your jurisdiction that included Annex I PGRFA in the MLS;
- The crops that have been included in the MLS by these persons; and

- Any difficulties these persons encountered in including Annex I PGRFA in the MLS:

If your answer is 'no' please provide details, in particular details of any difficulties encountered in encouraging these persons to include Annex I PGRFA in the MLS:2

The National Genebank suffers from a lack of financial resources to use in workshops aiming to inform on the ITPGRFA activities, for encouraging people to include PGRFA in the Multilateral System.

Article 12: Facilitated access to plant genetic resources for food and agriculture within the Multilateral System

22. Has your country taken measures to provide facilitated access to Annex I PGRFA, in accordance with the conditions set out in Article 12.4 of the Treaty?

Yes

No

If your answer is 'yes', please provide details of such measures:

Genetic resources for food and agriculture are exchanged in accordance with the SMTA of the ITPGRFA for researchers, master and doctoral students.

If your answer is 'no', please provide details of any difficulties encountered in providing facilitated access to Annex I PGRFA:

23. Has facilitated access been provided in your country to Annex I PGRFA using the Standard Material Transfer Agreement (SMTA)?

Yes

No

If your answer is 'no', please provide details of any difficulties encountered in providing facilitated access to Annex I PGRFA using the SMTA:

24. Has the SMTA been used voluntarily in your country to provide access to non-Annex I PGRFA?

Yes No

No, but the issue is under consideration

25. Does the legal system of your country provide an opportunity for parties to the material transfer agreements (MTAs) to seek recourse in case of contractual disputes arising under such agreements?

Yes

No

If your answer is 'yes', please provide details of the relevant laws, regulations or procedures:

26. Does the legal system of your country provide for the enforcement of arbitral decisions related to disputes arising under the SMTA?

Yes

No

If your answer is 'yes', please provide details of the relevant laws, regulations or procedures:

27. Have there been any emergency disaster situations in respect of which your country has provided facilitated access to Annex I PGRFA for the purpose of contributing to the re-establishment of agricultural systems?

Yes

No

If your answer is 'yes', please provide details of such emergency disaster situations and the Annex I PGRFA to which access was provided:

Article 13: Benefit-sharing in the Multilateral System

28. Has your country made any information available regarding Annex I PGRFA?

Yes

No

If your answer is 'yes', please provide details of any information made available regarding Annex I PGRFA:

Catalogues and inventories

Information on technologies

Results of scientific and socio-economic research, including characterisation, evaluation and utilisation

Other

29. Has your country provided or facilitated access to technologies for the conservation, characterisation, evaluation and use of Annex I PGRFA?

Yes

No

If your answer is 'yes', please indicate whether your country:

Has established or participated in crop-based thematic groups on utilisation of PGRFA;

Is aware of any partnerships in your country in research and development and in commercial joint ventures relating to the material received through the MLS, human resource development and effective access to research facilities.

Please provide details:

The National Genebank establishes a genetic pool that includes some crops with stone kernels, citrus and some genetic resources from pomegranate. The bank also has a laboratory for ultra-cold using liquid nitrogen to preserve genetic resources having a vegetative reproduction, as well as 3 greenhouses for conservation and propagation.

30. Has your country provided for and/or benefitted from capacity building measures in respect of Annex I PGRFA?³

Yes

No

If your answer is 'yes', please indicate whether such measures were related to:

Establishing and/or strengthening programmes for scientific and technical education and training in conservation and sustainable use of PGRFA;

Developing and strengthening facilities for conservation and sustainable use of PGRFA;

³ Please note that this question differs from question 15 as it only concerns Annex I PGRFA and is more specific

Carrying out scientific research and developing capacity for such research.

If your country provided for and/or benefitted from such measures, please provide details:

The National Genebank provides training courses for students and researchers working in the characterization, evaluation, conservation and preservation of genetic resources for food and agriculture.

Article 14: Global Plan of Action

31. Has your country promoted the implementation of the Global Plan of Action for the Conservation and Sustainable Use of Plant Genetic Resources for Food and Agriculture?

Yes

No

If your answer is 'yes', please indicate whether the implementation of the plan was done through:

National actions;

International cooperation;

Other actions

Please provide details:

Article 15: Ex Situ Collections of Plant Genetic Resources for Food and Agriculture held by the International Agricultural Research Centres of the Consultative Group on International Agricultural Research and other International Institutions

32. Has facilitated access to Annex I PGRFA been provided in your country to the International Agricultural Research Centres of the Consultative Group on International Agricultural Research (IARCs) or other international institutions that have signed agreements with the Governing Body of the Treaty?

Yes

No

If your answer is 'yes', please indicate:

To which IARCs or other international institutions facilitated access was provided;

The number of SMTAs entered into with each IARC or other international institution:

If your answer is 'no', please provide details of any difficulties encountered in providing facilitated access to Annex I PGRFA to IARCs and other international institutions that have signed agreements with the Governing Body of the Treaty:

33. Has access to non-Annex I PGRFA been provided in your country to IARCs or other international institutions that have signed agreements with the Governing Body of the Treaty?

Yes

No X

If your answer is 'yes', please indicate:

To which IARCs or other international institutions access was provided;

The number of MTAs entered into with each IARC or other international institution:

If your answer is 'no', please provide details of any difficulties encountered in providing access to non-Annex I PGRFA to IARCs and other international institutions that have signed agreements with the Governing Body of the Treaty:

A number of Egyptian plant genetic resources for food and agriculture have been deposited in the International Centers for Agricultural Research, before the creation of the National Genebank and recently the Arab Republic of Egypt has not received any request from the International Agricultural Research Centers.

Article 16: International Plant Genetic Resources Networks

34. Has your country undertaken any activities to encourage government, private, non-governmental, research, breeding and other institutions to participate in the international plant genetic resources networks?

Yes

No X

If your answer is 'yes', please provide details of such activities:

Article 18: Financial Resources

35. Has your country provided financial resources for national activities for the conservation and sustainable use of PGRFA?

Yes X

No

If your answer is 'yes', please provide the estimated amount of funds provided during the last five years, including government resources:

The Arab Republic of Egypt provided annual funding to support the work of the National Genebank during the last five years, with a total estimated amount of three million Egyptian pounds, as well as funding through projects submitted by the Science, Technology and Innovation Funding Authority, with an estimated amount of five million Egyptian pounds during the past five years.

Please indicate if your country has developed a strategy or other measures to enhance the availability, transparency, efficiency and effectiveness of the provision of financial resources to implement the International Treaty:

36. Has your country provided financial resources for the implementation of the International Treaty?

Yes X

No

If your answer is 'yes', where possible, please provide details of such channels and the amount of the financial resources involved during the last 5 years:

Total amount:

Channel:

Bilateral X

Regional

Multilateral

Please provide details:

Financial resources were provided through some projects submitted by the Science, Technology and Innovation Funding Authority, with an estimated amount of five million Egyptian pounds during the past five years.

37. Has your country received financial resources for the implementation of the International Treaty?

Yes

No

If your answer is 'yes', where possible, please provide details of such channels and the amount of the financial resources involved during the last 5 years:

Total amount:

Channel:

Bilateral

Regional

Multilateral

Please provide details:

The Arab Republic of Egypt has received funding for a project from the Multilateral System with an amount of 250 thousand dollars for a period of 3 years

General remarks on the implementation of the ITPGRFA

38. You may use this box to share any advice you may have arising from your country's experience with implementation of the Treaty:

39. You may use this box to share any additional information that may be useful to provide a broader perspective of difficulties in implementation of the Treaty:

40. You may use this box to share any additional information that may be useful to provide a broader perspective of measures that could help to promote compliance:

[--- Question to be administered separately ---]

About this reporting

41. Have you encountered any difficulties in completing this reporting format?

Yes

No

If your answer is 'yes', please provide details on such difficulties:

If you have suggestions for improvement of this reporting format, please share them:
