Cereal Supply/Demand Balance for Sub-Saharan Africa

as of mid-June 2015

The FAO/GIEWS Country Cereal Balance System (CCBS) is a database of annual supply and utilization balances for main cereals, covering all countries of the world. It has been maintained by FAO/GIEWS since 1980 and is updated on a continual basis.

This statistical report, which is a subset of CCBS data, presents the current-year cereal supply and demand balances for all sub-Saharan African countries, highlighting cereal import and food aid requirements of each country.

This report is complementary to the FAO/GIEWS report [Crop Prospects and Food Situation](#) and is published four times a year, with the same schedule.

Terminology

"Utilization": All elements of utilization for wheat and coarse grains are expressed in grain equivalent. For rice, all elements are expressed in milled form. Non-food use includes post-harvest losses, seed use, feed use, industrial use for all cereals.

ANGOLA

CEREAL SUPPLY/DEMAND BALANCE FOR THE 2015/16 MARKETING YEAR (April/March)

	Wheat	Rice	Coarse grains	Total cereals

The **Global Information and Early Warning System on Food and Agriculture (GIEWS)** continuously monitors crop prospects and food security situation at global, regional, national and sub-national levels and warns of impending food difficulties and emergencies. Established in the wake of the world food crisis of the early 1970's, GIEWS maintains a unique database on all aspects of food supply and demand for every country of the world. The System regularly provides policy makers and the international community with up-to-date information so that timely interventions can be planned and suffering avoided.

This report is based on information available as of mid-June 2015
