

## Ecosystem approach to fisheries - Implementation monitoring tool

©FAO/Ines Gonsalves

This course is part of the series on the Ecosystem Approach to Fisheries (EAF). It features the EAF Implementation Monitoring Tool (EAF-IMT), a simple method to monitor progress in implementation of the EAF in fisheries management, that aims to support fisheries management planning and decision-making. This course was designed to explain why and how to use the EAF-IMT and associated material.

45 minutes

Available in English

### You will learn about

- Why, when and how to use the EAF-IMT.
- EAF-IMT related material, such as the EAF-IMT Manual, scoring tables, scoring rationale template and dashboard.
- How to recognize strengths and weaknesses of assessed fisheries.
- Formulations of recommendations to address the gaps identified.

## Who is the course for?

This e-learning course is intended for a cross section of audiences involved in fisheries or related fields, including:

- Policy makers and fisheries managers.
- Staff of fisheries institutions.
- Scientists and technicians.
- Fishers and fish workers.
- Academia and students.
- Other practitioners, UN agencies, non-governmental organizations (NGOs), Regional Fishery Bodies (RFBs).

## Key partners

This course was developed by the Assessment and Management Team (NFIFM) of the Fisheries and Aquaculture Division of the Food and Agriculture Organization of the United Nations (FAO), with the support of the EAF-Nansen Programme (GCP/GLO/690/NOR), and the Norwegian Agency for Development Cooperation (Norad).
