

151st Session of the FAO Council (CL 151)

Side Event: FAO/IAEA Partnership for Food Security: High Impact of Nuclear Applications on the Ground

Friday 27 March, 13:30-14:30, Iran Room

About the event: The side event will highlight impacts in Member States generated through the FAO/IAEA partnership in addressing national and regional priorities.

Purpose: The side event will show how the FAO/IAEA partnership has improved efficiency, sustainability and impact in the field. Uniquely, this side event will offer a field-level view from and by member countries on what the Joint FAO/IAEA Division's expertise, technical support and technology transfer means to them, including small-scale and often poor farming communities.

Responsible office: AGED

Languages: English, French and Spanish
