

Food and nutrition security analysis

Course: **CAADP Pillar III: Reducing risks and improving food security**

© FAO/Alberto Conti

This course was developed to support the Comprehensive Africa Agriculture Development Programme (CAADP) of the New Partnership for Africa's Development (NEPAD), a programme of the African Union (AU). The course based on the CAADP Pillar 3 Framework for African Food Security (FAFS). It aims to provide an overview of the CAADP process and its linkages to food security.

Up to 2 hours of learning, depending on learning needs

Available in English and French

You will learn about

- Approach and goals of the Comprehensive Africa Agriculture Development Programme (CAADP)
- Objectives and components of the Framework for African Food Security (FAFS)

Who is the course for?

The target audience of this course includes professionals involved in the collection, analysis, and reporting of food security information; as well as planners, policy formulators and programme managers who are involved in meeting food security goals and targets.

Key partners

The course was developed by the Food and Agriculture Organization of the United Nations (FAO), with funding from the Federal Republic of Germany, the European Union (EU) through the EU-FAO Programme “Improved Global Governance for Hunger Reduction”.

Contributing organizations:

- New Partnership for Africa’s Development (NEPAD)
- University of Pretoria
