Specification Monograph prepared by the meeting of the Joint FAO/WHO Expert
Committee on Food Additives (JECFA), 87th Meeting 2019

CASSIA GUM
(TENTATIVE)

This monograph was also published in: Compendium of Food Additive Specifications. Joint
FAO/WHO Expert Committee on Food Additives (JECFA), 87th meeting 2019. FAO JECFA
Monograph 23 (2019)

CASSIA GUM (TENTATIVE)

At the 86th JECFA the Committee decided to set the specification of Cassia gum to „Final“, because a new HPLC-method for the determination of anthraquinones in Cassia gum had been evaluated during the meeting. Based on user complaints about method criteria and performance of the method the Committee started to review the method again at 87th meeting. It was decided to set the specification on “tentative”, while the investigation is ongoing. At a later stage a call for data might be started.
