

Communicating for food security

© FAO/F. McDougall

The course provides guidance on how to design and implement a communication strategy for food security information. Using several realistic examples, the course illustrates the various components of a communication strategy, and provides concrete and detailed guidelines on how to communicate through the media and present information to policymakers in order to influence the policymaking process.

 Up to 8 hours of learning, depending on learning needs

 Available in English, French and Spanish

You will learn about

- Identification and analysis of the audiences
- Definition of the communication objectives and messages
- Selecting channels for presenting your information
- Approaching the media
- Techniques for working with the media
- Presenting information to policymakers
- Preparing policy briefs
- Meeting policymakers

Who is the course for?

The target audience of this course includes: mid-level managers, technical staff, field personnel who are involved in the collection, management, analysis, and reporting of food security information, as well as, planners, policy formulators and programme managers who are involved in monitoring progress in poverty reduction, and meeting food security goals and targets.

Key partners

The course was developed in the context of the “EC/FAO Programme on Linking Information and Decision Making to Improve Food Security”, funded by the European Union (EU) and implemented by the Food and Agriculture Organization of the United Nations (FAO).
