

The International Treaty

ON PLANT GENETIC RESOURCES FOR FOOD AND AGRICULTURE

"Rio Six-Point Action Plan for the International Treaty on Plant Genetic Resources for Food and Agriculture (the "Rio Six-Point Action Plan"), adopted by consensus at the second High-level Roundtable on the International Treaty on Plant Genetic Resources for Food and Agriculture on the occasion of the United Nations Conference on Sustainable Development Rio de Janeiro, Brazil, 21 June 2012

Priority actions to be undertaken by the International Treaty on Plant Genetic Resources for Food and Agriculture (The Treaty) with the involvement of all relevant stakeholders, include:

1. To establish a *Platform for the Co-Development and Transfer of Technologies*, within the context of non-monetary benefit-sharing under the Treaty;
2. To promote a *public-private partnership for pre-breeding*;
3. To facilitate a new Keystone-type dialogue, to complete the governance of all plant genetic resources for food and agriculture under the Treaty;
4. To raise awareness of the actual and potential value of underutilized species of local and regional importance for food security and sustainable development;
5. To sensitize policy makers and other key stakeholders about the importance of fully implementing the Treaty, not only for food and agriculture, but also for food security, nutrition and the resilience of agriculture systems, particularly in the context of the climate change; and
6. To explore the possible expansion the list of the crops included in the Annex I to the Treaty.
