

# HOW TO become a Soil Doctor

**DO YOU WANT TO LEARN  
MORE ABOUT SOIL AND HELP  
OTHER FARMERS IN YOUR  
COMMUNITY TO IMPROVE  
THEIR LIVELIHOOD?**

**1** Interested farmers in your community will receive a general training

**GENERAL TRAINING**

- Introduction to the program
- Introduction to sustainable soil management

**2** Top farmers will be selected by the promoter for receiving a higher level training

**HIGHER LEVEL TRAINING**

- Basics of teaching using the GSP educational material
- Specific problem solving
- Report to the promoter (Feedback\ Problems Exchange)

**3** Farmers who received the higher level training are certified as Soil Doctors

**CERTIFICATION CRITERIA**

- Be willing to assist fellow farmers in conducting basic assessments of their soils
- Be willing to share their local knowledge and experience with the promoter and the GSP

## SELECTION CRITERIA
