

SDG Indicator 2.a.1 - Agriculture orientation index

© Morgan Harris

This course focuses on SDG Indicator 2.a.1 – Agriculture orientation index for government expenditure. The course illustrates the indicator, its rationale, the methodology and statistical classifications it is based on, and the challenges that countries may face when compiling the data.

 1.5 hours

 Available in English, French and Spanish

Digital badge

You will learn about

- Fundamental role of public finance in supporting agriculture
- How SDG Indicator 2.a.1 is calculated
- How the Indicator can help monitoring Target 2.a of the 2030 Development Agenda
- Data collection, compilation and reporting process for SDG Indicator 2.a.1
- Role of countries in compiling government expenditure data

Who is the course for?

This course is primarily intended for professionals who play a role in the data collection, analysis and reporting on SDG Indicator 2.a.1, as well as for people with an interest in the process. They include policy-makers, data producers, and professionals in charge of compiling the Government Expenditure on Agriculture questionnaire.

Key partners

This course is part of a series on Sustainable Development Goal indicators, developed by the Food and Agriculture Organization of the United Nations (FAO) to support countries in the collection and analysis of statistical information for those SDG indicators for which FAO is custodian UN agency.
