

HIGHLIGHTS

**FAO's work on social protection:  
Contributing to zero hunger, poverty  
reduction and resilience in rural areas**

This brochure highlights the role that social protection plays in addressing many of the barriers poor rural households face in building resilient and sustainable livelihoods; it also shows that low-income countries can afford to provide it for their citizens.

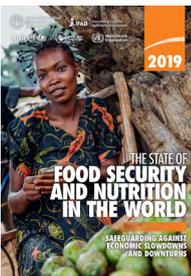

(28 pp., also available in [French](#) and [Spanish](#))

**Youth in motion for climate action!  
A compilation of youth initiatives in  
agriculture to address the impacts of  
climate change**

This publication highlights initiatives that have engaged and mobilized young people including YOUNGO, the official children and youth constituency to the UNFCCC, university challenges, and events designed for youth to take action and engage with leaders.

(60 pp.)

**The State of Food Security and Nutrition  
in the World 2019: Safeguarding against  
economic slowdowns and downturns**

This year's edition looks at how economic slowdowns, poverty, inequality and marginalization are contributing to the rise in hunger and malnutrition, and suggests integration of food security and nutrition into poverty reduction efforts will work in tandem with reducing gender inequalities and social exclusion.

(2 pp.)

**Reinforcing capacities for stability: Strengthening natural-resource management capacity to restore agriculture in fragile contexts**  
(2 pp.)

## NEW BOOKS AND BRIEFS

### AGRICULTURE

#### A decision guide for rural advisory methods

This guide helps agriculture extension professionals and their organizations to make informed choices regarding the best methods and approaches to provide information, technologies and services to rural producers and to facilitate interactions and knowledge flow.

(72 pp., Russian. Also available in [English](#) and [French](#))

#### Análisis espacial del balance energético derivado de biomasa – Metodología WISDOM, Provincia de Misiones

Including a diagnosis of the supply and demand of biomass fuels, this study identifies and quantifies the availability and consumption of biomass resources in the province of Misiones, Argentina in an effort to promote development of renewable energy.

(Buenos Aires, 108 pp.)

#### Food loss and waste and value chains – Learning guide

This guide helps teachers raise their students' awareness of food loss and waste and introduces best practices for food waste reduction through complementary activities and materials such as quizzes, games and videos.

(Cairo, 44 pp. Also available in [Arabic](#))

### ANIMAL PRODUCTION AND HEALTH

#### Eighth Asia-Pacific workshop on multi-sectoral collaboration at the animal-human-ecosystems interface

One Health is focused on preventing and mitigating health threats where animals, humans, plants and the environment interface, with the objective of achieving public health, food and nutrition security, sustainable ecosystems and fair trade facilitation.

(Bangkok, 48 pp.) FAO, OIE & WHO

#### Poultry sector – The United Republic of Tanzania

This review, in part, explains how small-extensive scavenging family poultry systems work in Tanzania by focusing on the critical importance of feed resources, such as household waste, leftovers, field crops, worms and insects, for the sustainability of individual farms and the industry.

(100 pp.) FAO animal production and health

### CLIMATE CHANGE

#### Climate-smart agriculture and the Sustainable Development Goals – Mapping interlinkages, synergies and trade-offs and guidelines for integrated implementation

This paper argues that climate-smart agriculture can support the achievement of every one of the 17 Sustainable Development Goals, it also covers what factors to consider when considering it and how to apply it on a country-level basis.

(112 pp.)

### ECONOMIC AND SOCIAL DEVELOPMENT

#### Empoderar a la juventud para que participe en inversiones responsables en la agricultura y los sistemas alimentarios – Desafíos, oportunidades y lecciones extraídas de seis países africanos (Côte d'Ivoire, Malawi, Mozambique, Namibia, Sudáfrica y Uganda)

This report explores the main challenges and opportunities faced by young agri-entrepreneurs in emerging value chains, including the creation of thriving businesses that tackle the challenge of feeding a growing population.

(48 pp., Spanish. Also available in [English](#) and [French](#))

#### Food security and resilience of refugees and host communities in south-west Uganda

This study seeks to gain a better understanding of the determinants of food security and resilience of refugee and host community households in south-west Uganda, including the availability of physical, household and agricultural productive assets.

(64 pp.) FAO resilience analysis report

### Lusaka City region food system assessment synthesis report

This study evaluates the sustainability of food production in combination with land tenure, including land security and access for smallholder farmers. One finding is that the more secure the land, the higher the level of land conservation farmers practice.

(Lusaka, 100 pp.) FAO & RUAF

### Resources partnerships – Impact 2019

This report seeks to communicate what FAO is, what it does, and how it works with diverse United Nations agencies and other partners to achieve the sustainable development goals, primarily the second one: achieving Zero Hunger.

(144 pp.)

### Marco de la FAO sobre pobreza extrema rural – Hacia el logro de la meta 1.1 de los objetivos de desarrollo sostenible

As we enter a time of slowdown in global growth, this framework assesses FAO's work on poverty eradication and identifies four ways to reach the extreme poor: food security and nutrition, economic inclusion, sustainable and resilient livelihoods, and protection against risks.

(68 pp., Spanish. Also available in [English](#))

### Twin peaks: The seasonality of acute malnutrition, conflict and environmental factors. Chad, South Sudan and the Sudan – September 2019

This study correlates spikes in acute malnutrition with the end of the dry season in three African countries and argues the evolution of dryland livelihoods, natural resource conflict and acute global malnutrition patterns all require greater recognition and understanding.

(72 pp.) FAO & Tufts University

## FISHERIES AND AQUACULTURE

### Uso de materias primas locales y no locales para alimentación de tilapias en sistemas de acuicultura de recursos limitados (AREL) – Mesoamérica, Cuba y República Dominicana

This guide illustrates the production of balanced feed at minimum cost for aquaculture: It instructs how to produce artisanal food for tilapia, and explains climatological and bromatological features of various foods produced in the Central America, Cuba and the Dominican Republic.

(Panama City, 100 pp.)

## GENDER

### Country gender assessment of agriculture and the rural sector in Maldives

The report provides data on the pace and progress of women's empowerment in rural areas and reveals that despite improvement – though slow and irregular – gender inequality persists in agriculture livelihoods.

(Malé, 68 pp.)

## STATISTICS

### Major tropical fruits – Statistical compendium 2018

This report contains data retrieved from FAOSTAT, FAO's Statistics Division; responses to the annual questionnaire from the FAO Intergovernmental Sub-Group on Tropical Fruits; official data from National Statistics Offices; and secondary data from desk research.

(40 pp.)

## RECENT RELEASES FROM OTHER UN AGENCIES AND IGOS

### ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT – OECD

### Digital opportunities for better agricultural policies

This report explores opportunities to improve current agricultural and agri-environmental policies, and to deliver new, digitally enabled and information-rich policy approaches.

(Paris, 232 pp.)
