COMMISSION ON GENETIC RESOURCES FOR FOOD AND AGRICULTURE

Item 4.1 of the Provisional Agenda

Nineteenth Regular Session

Rome, 17–21 July 2023

REPORT OF THE SIXTH SESSION OF THE TEAM OF TECHNICAL AND LEGAL EXPERTS ON ACCESS AND BENEFIT-SHARING

Note by the Secretariat

1. The Commission on Genetic Resources for Food and Agriculture (Commission), at its last session, entrusted its Team of Technical and Legal Experts on Access and Benefit-sharing (ABS Expert Team) with multiple tasks. The Sixth Session of the ABS Expert Team was held in Rome from 2 to 4 May 2023.
2. As requested by the Commission, the ABS Expert Team reviewed and revised a stand-alone document containing a typology of access and benefit-sharing (ABS) country measures relevant to genetic resources for food and agriculture (GRFA). It also reviewed and revised a questionnaire on the implications of ABS measures for the use and exchange of GRFA, which aims to generate information for a report on the implications of ABS country measures for the use and exchange of GRFA and TK associated with GRFA, as requested by the Commission at its last session. In addition, the ABS Expert Team considered the role of digital sequence information in the conservation and sustainable use of genetic resources for food and agriculture and made recommendations regarding future work of the Commission in this area.
3. The report of the Sixth Session of the ABS Expert Team is contained in this document for consideration by the Commission.

Rome, 2023

The documents prepared for the Sixth Session of the Team of Technical and Legal Experts on Access and Benefit-sharing of the Commission on Genetic Resources for Food and Agriculture are available on the Internet at the following address:

<http://www.fao.org/cgrfa/meetings/ttle-abs/en/>

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Food and Agriculture Organization of the United Nations concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries.

TABLE OF CONTENTS

	<i>Paragraphs</i>
I. Opening of the meeting	1–3
II. Election of Co-Chairs and <i>Rapporteur</i>	4
III. Adoption of the Agenda	5
IV. Access and benefit-sharing for genetic resources for food and agriculture	6–14
IV. Digital sequence information and genetic resources for food and agriculture	15–18
VI. Closing remarks	19–20

Appendices

- A. List of experts
- B. Agenda of the Sixth Session of the Team of Technical and Legal Experts on Access and Benefit-sharing
- C. Access and benefit-sharing and genetic resources for food and agriculture: typology of country measures
- D. Draft online questionnaire on the implications of access and benefit-sharing measures for the use and exchange of genetic resources for food and agriculture and for benefit-sharing
- E. List of documents

I. OPENING OF THE MEETING

1. The Sixth Session of the Team of Technical and Legal Experts on Access and Benefit-sharing (ABS Expert Team) was held in Rome, Italy, from 2 to 4 May 2023. The list of experts is given in *Appendix A* to this report. Observers from the following instruments and organizations also attended: Convention on Biological Diversity (CBD), International Treaty on Plant Genetic Resources for Food and Agriculture (Treaty) and CGIAR.

2. Ms Ida Chiara de Rosa, representing Canada, representative of North America in the Bureau of the Commission on Genetic Resources for Food and Agriculture (Commission), opened the meeting and welcomed all participants. She recalled that the last meeting of the ABS Expert Team had to be held virtually due to the COVID-19 pandemic and expressed her hope and expectation that the capacity to interact face to face, both formally and informally, would increase the value of attendance at this meeting.

3. Mr Dan Leskien, Senior Liaison Officer of the Commission, welcomed the members of the ABS Expert Team. He noted various developments since the last session of the Commission, in particular the decision of the Fifteenth Meeting of the Conference of the Parties to the Convention on Biological Diversity (CBD) to establish, as part of the Kunming-Montreal Global Biodiversity Framework, a multilateral mechanism for benefit-sharing from the use of digital sequence information on genetic resources, including a global fund,¹ and the draft *Agreement under the United Nations Convention on the Law of the Sea on the conservation and sustainable use of marine biological diversity of areas beyond national jurisdiction*² that is expected to be formally adopted in June 2023. He further noted the recommendations received from the Commission's intergovernmental technical working groups and introduced the two experts assisting the Secretariat in the preparation of the meeting: Mr David Smith, CABI (United Kingdom) and Mr Evanson Chege Kamau, University of Oldenburg (formerly University of Bremen, Germany) present at the meeting.

II. ELECTION OF CO-CHAIRS AND *RAPPORTEUR*

4. The ABS Expert Team elected Ms María Laura Villamayor (Argentina) and Ms Marliese von den Driesch (Germany) as Co-Chairs. Mr Brad Sherman (Australia) was elected as *Rapporteur*.

III. ADOPTION OF THE AGENDA

5. The ABS Expert Team adopted the Agenda, as given in *Appendix B*.

IV. ACCESS AND BENEFIT-SHARING FOR GENETIC RESOURCES FOR FOOD AND AGRICULTURE

6. The ABS Expert Team considered the document *Access and benefit-sharing and genetic resources for food and agriculture*³ and took note of comments and inputs from the Commission's intergovernmental technical working groups.⁴

*Access and benefit-sharing and genetic resources for food and agriculture:
typology of country measures*

7. The ABS Expert Team recalled the Commission's request to compile for review by the Working Groups, the ABS Expert Team and the Commission at their next sessions, as a stand-alone document examples of legislative, administrative or policy measures on access and benefit-sharing (ABS) from different countries that directly or indirectly accommodate distinctive features of genetic resources for food and agriculture (GRFA) and associated traditional knowledge (TKGRFA).⁵

¹ CBD/COP/DEC/15/9.

² A/CONF.232/2023/CRP.2/Rev.1.

³ CGRFA/TTLE-ABS-6/23/2.

⁴ CGRFA/TTLE-ABS-6/23/Inf.2 Rev.1; CGRFA/TTLE-ABS-6/23/Inf.2 Add.1; CGRFA/TTLE-ABS-6/23/Inf.5; CGRFA/TTLE-ABS-6/23/Inf.6; CGRFA/TTLE-ABS-6/23/Inf.7; CGRFA/TTLE-ABS-6/23/Inf.8.

⁵ CGRFA-18/21/Report, paragraph 26.

8. The ABS Expert Team reviewed and revised the table contained in *Appendix II* of the document *Access and benefit-sharing and genetic resources for food and agriculture: typology of country measures*,⁶ as given in *Appendix C*.

9. The ABS Expert Team requested the Secretariat to:

- add other countries as examples in 2.1.1(b);
- add other countries as examples in 2.1.5(a);
- check the validity of country examples in 2.2.3(f) given the changes made by the ABS Expert Team;
- provide an explanation for the term ‘Framework PIC’ in 2.3.1(f);
- specify the relevant Argentinian province(s) in 2.3.2(g);
- add a new section 3.1*bis* on the scope of measures addressing access to and utilization of traditional knowledge (TK);
- provide references to country examples where missing; and
- consider the country reports on the implementation of the Treaty received from Contracting Parties as an additional source of information.

10. Members of the ABS Expert Team agreed to provide any additional information, including country examples with the relevant references, by 15 May 2023 to the Secretariat for inclusion in the document that will be provided to the Commission for consideration at its forthcoming session.

11. The ABS Expert Team requested the Secretariat to provide an introduction to the stand-alone document, which:

- highlights the need to read the typology of country measures alongside the *Survey of access and benefit-sharing country measures accommodating the distinctive features of genetic resources for food and agriculture and associated traditional knowledge* (Survey)⁷ referred to in the typology table as ‘Humphries *et al.* 2021’;
- stresses that the typology table is a living document that may be updated in light of new ABS country measures;
- clarifies that the ABS country measures referenced in the typology are examples only and are not meant to be exhaustive;
- clarifies that where the typology table refers to “genetic resources” (GR) that it includes all genetic resources irrespective of their use;
- describes the methodology used to prepare the typology table;
- clarifies that while the document is in line with the ABS Elements and the Survey, it also acknowledges that there are countries that address ABS for GRFA through ABS measures that apply to both genetic and biological resources and that there are countries that address ABS through legislative, administrative or policy measures without making explicit reference to ABS; and
- refers, as appropriate, to national measures that may be adopted, best practices and lessons learned from the realization of Farmers’ Rights.⁸

⁶ CGRFA/TTLE-ABS-6/23/2, *Appendix I*.

⁷ Humphries, F., Laird, S., Wynberg, R., Morrison, C. Lawson, C. & Kolesnikova, A. 2021. *Survey of access and benefit-sharing country measures accommodating the distinctive features of genetic resources for food and agriculture and associated traditional knowledge*. Rome, FAO on behalf of the Commission on Genetic Resources for Food and Agriculture. <https://doi.org/10.4060/cb6525en>

⁸ IT/GB-9/22/13/Inf.1.

12. The ABS Expert Team recommended that the Commission consider the usefulness of visualizing and/or summarizing specific ABS country measures as a whole, or model types of ABS country measures as part of the typology document or separate information material.

Draft online questionnaire on the implications of access and benefit-sharing measures for the use and exchange of genetic resources for food and agriculture and for benefit-sharing

13. The ABS Expert Team reviewed and revised the *Draft online questionnaire on the implications of access and benefit-sharing measures for the use and exchange of genetic resources for food and agriculture and for benefit-sharing*,⁹ as given in *Appendix D*. In doing so it took note of comments and inputs received from the Commission's intergovernmental technical working groups.¹⁰ The ABS Expert Team noted that the questionnaire will serve the purpose of preparing a report on the implications of ABS country measures for the use and exchange of GRFA and TK associated with GRFA, as requested by the Commission at its last session.¹¹

14. The ABS Expert Team recommended that an introduction to the questionnaire clarify the purpose and timeline of the questionnaire, as well as the stakeholder groups that the questionnaire addresses. The Team also recommended that the questionnaire use hyperlinks to clarify the meaning of specific terms including 'ABS measures', 'country', 'genetic resources', 'GRFA', 'permit', 'SMTA', 'special provisions' and 'TK' and that multimedia tools should be used to assist respondents in completing the questionnaire. The ABS Expert Team recommended that the Commission encourage all respondent groups to motivate relevant stakeholders to complete the questionnaire. The ABS Expert Team agreed that certain questions would benefit from contributions from the National Focal Points for the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization to the Convention on Biological Diversity (Nagoya Protocol) and the National Focal Points for the Treaty and recommended that the Commission bring the questionnaire to their attention through their Secretariats.

V. DIGITAL SEQUENCE INFORMATION AND GENETIC RESOURCES FOR FOOD AND AGRICULTURE

15. The ABS Expert Team considered the document *Digital sequence information and genetic resources for food and agriculture*¹² and took note of the draft study on *The role of digital sequence information in the conservation and sustainable use of genetic resources for food and agriculture: Opportunities and challenges*.¹³ It took note of and endorsed comments and inputs from the Commission's intergovernmental technical working groups.¹⁴

16. It further recommended that the Commission invite Members to submit information on domestic ABS measures applying to digital sequence information (DSI) and their actual or potential implications for the conservation and sustainable use of GRFA, including exchange, access to and the fair and equitable sharing of the benefits arising from their use, and to compile this information, for the information of the Commission.

17. The ABS Expert Team recommended that the Commission request the Secretariat to continue to monitor and report to the Commission developments regarding DSI in other fora, with a view to considering potential implications, opportunities and challenges for the Commission and its Members. It further recommended that the Commission continue to hold, in collaboration with the secretariats of the CBD and the Treaty, virtual open-ended workshops on DSI, as appropriate, with a view to informing and raising awareness of Commission Members, observers and stakeholders on recent

technological and policy developments related to DSI. It further recommended to continue to raise awareness on the role of DSI in the conservation and sustainable use of GRFA and sharing of benefits derived from them and consider some of the challenges involved in assessing and making full use of DSI. In addition, the ABS Expert Team recommended that the Commission request FAO to continue to support capacity development and to monitor such initiatives taking place in other fora.

18. The ABS Expert Team recommended that the Commission encourage its Members to coordinate future work on DSI, including ABS for DSI, among relevant ministries domestically, with a view to ensuring consistency and mutual supportiveness of the ongoing processes in the different fora.

VI. CLOSING REMARKS

19. Mr Dan Leskien, Senior Liaison Officer of the Commission, thanked the Co-Chairs for their leadership during the session. He also thanked the *Rapporteur*. He thanked all participants for their valuable contributions and encouraged them to attend the Nineteenth Regular Session of the Commission that would take place in Rome from 17 to 21 July 2023.

20. The Co-Chairs thanked members of the ABS Expert Team for their hard work, good spirit, clarity and willingness to compromise. They also thanked the Secretariat.

5. Any other matters
6. Adoption of the Report

APPENDIX C

ACCESS AND BENEFIT-SHARING AND GENETIC RESOURCES FOR FOOD AND AGRICULTURE:
TYPOLOGY OF COUNTRY MEASURES

	Measure	Country (examples)	Further reading
Element 1: INSTITUTIONAL ARRANGEMENTS			
1.1 Institutional responsibility			
1.1.1 Single institutional responsibility for access and benefit-sharing (ABS) <i>Some countries have chosen to entrust one single institution with the administration of ABS measures</i>	(a) Single institution with focus on food, forest and/or agriculture	Comoros; ¹ Benin; ² Netherlands (the Kingdom of); ³ Portugal; ⁴ Bulgaria; ⁵ Bhutan; ⁶ Viet Nam; ⁷ Grenada; ⁸ Saint Kitts and Nevis; ⁹ Peru; ¹⁰ Honduras; ¹¹	Humphries <i>et al.</i> , 2021, p13f, 16ff; Hailu & Kamau, 2022, p243f; Mulesa & Westengen, 2020; National Biodiversity Centre, Bhutan, 2018, p23
	(b) Single institution with environmental focus	South Africa; Burundi; ¹² Ethiopia; ¹³ Denmark; ¹⁴ ; Dominican Republic; ¹⁵ Guatemala; ¹⁶ Syrian Arab Republic ¹⁷	
	(c) Single institution with science/technology focus	Uganda; ¹⁸ Singapore; ¹⁹	
	(d) Single institution with overall responsibility for all biodiversity	Peru; ²⁰ Costa Rica; ²¹ Ethiopia ²²	
1.1.2 Shared institutional responsibility for ABS	(a) Based on type of genetic resource*	Viet Nam; ²³ Republic of Korea; ²⁴ Estonia; ²⁵ Zimbabwe ²⁶	Humphries <i>et al.</i> , 2021, p. 14f; Trang, Ba Nguyen & Thu, 2022, p333; Lee & Cho, 2022, p380f

* For example for Annex 1/MLS PGRFA of the Treaty, see also 2.1.7 (a).

	Measure	Country (examples)	Further reading
<i>Other countries have chosen to entrust different institutions with the ABS administration</i>	(b) Based on commercial or non-commercial utilization	South Africa; ²⁷ Ecuador ²⁸	Humphries <i>et al.</i> , 2021, p14f; Kamau, 2022a, p168f; Cabrera Ormaza, 2022, p103ff
	(c) Based on (sub)sector or field of research	Mexico; (ref) Peru; (ref) Republic of Korea (ref)	Humphries <i>et al.</i> , 2021, p14f;
1.1.3 Interagency coordination of ABS decisions <i>Countries have established various mechanisms to coordinate administration of ABS among responsible agencies.</i>	(a) One-stop-shop approach	Uganda; ²⁹ Mozambique; ³⁰ Nepal ³¹ Brazil; ³² Ecuador ³³ India, ³⁴ Dominican Republic ³⁵	Humphries <i>et al.</i> , 2021, p16ff; Otieno <i>et al.</i> , 2017; ABS Initiative, 2019; Nepalese Government, 2014, p112; Halewood, 2015; Mozini, 2022, p79f; Kamau, 2022b, p311f; Cabrera Ormaza, 2022, p104; Dominican Republic, https://ambiente.gob.do/autorizaciones-ambientales-2/
	(b) Coordination committees/councils (<i>in addition or in lieu of the one-stop-shop approach</i>)	South Africa; ³⁶ France; ³⁷ Kenya; ³⁸ Bhutan ³⁹	Humphries <i>et al.</i> , 2021, p16ff; Wynberg, 2017, pp198–218; FRB, 2020

1.2 Provision of national information on responsible institutions, ABS measures and procedures			
<i>Countries use different ways to provide information on responsible institutions, ABS measures and procedures</i>	(a) National websites, web portals, virtual platforms or information portals	Finland; ⁴⁰ Denmark; ⁴¹ Republic of Korea; ⁴² Hungary; ⁴³ Cameroon; ⁴⁴ Malaysia; ⁴⁵ France; ⁴⁶ Germany; ⁴⁷ Costa Rica; ⁴⁸ Kenya; ⁴⁹ Qatar; ⁵⁰ South Africa (ref)	Humphries <i>et al.</i> , 2021, p17ff
	(b) ABS Clearing-House		ABSCH, 2022
	Measure	Country (examples)	Further reading
Element 2: ACCESS TO AND UTILIZATION OF GENETIC RESOURCES FOR FOOD AND AGRICULTURE (GRFA)			
2.1 Categories of genetic resources (GR) subject to national ABS provisions on access			
2.1.1 Temporal scope	ABS provisions on access may apply to:		
	(a) GR accessed prior to entry into force of ABS measure, if there is a new use	Malaysia ⁵¹	
	(b) GR accessed after entry into force of ABS measure	Malta; ⁵² France; ⁵³	Winter, 2022; Greiber & Frederichs, 2022
2.1.2 GR for which provider country is country of origin or has acquired GR in accordance with Convention on Biological Diversity (CBD)	“Country of origin” may be where:		
	(a) GR exists within ecosystems and natural habitats		Humphries <i>et al.</i> , 2021, p23ff
	(b) Domesticated or cultivated species developed its distinctive properties	France; ⁵⁴ Mozambique; ⁵⁵ Uganda ⁵⁶	Humphries <i>et al.</i> , 2021, p24ff

	(c) Domestication took place	Kenya ⁵⁷	Humphries <i>et al.</i> , 2021, p24
	(d) GR have been domesticated and produced for a long time	Viet Nam ⁵⁸	Humphries <i>et al.</i> , 2021, p23ff
	(e) Native species was present in the country's territory before a specific date	Australia ⁵⁹	Humphries <i>et al.</i> , 2021, p24ff
	(f) Micro-organism as isolated from the national territory substrates, territorial sea, exclusive economic zone or the continental shelf	Brazil; ⁶⁰ Colombia ⁶¹	Humphries <i>et al.</i> , 2021, p24ff
	(g) All of the above		
2.1.3 Privately/ publicly held GR	ABS measures may apply to:		
	(a) No distinction between public and privately held genetic resources	Most countries	
	(b) Publicly (state/community) held genetic resources only	Australia ⁶²	Humphries <i>et al.</i> , 2021, p25, 38
2.1.4 GR/biological resources	(a) GR	all	
	(b) Biological resources in addition	Malaysia; Australia; India;(ref) Malta; ⁶³ South Africa (ref)	
2.1.5 Genetic information	(a) Only in conjunction with utilization of physical GR		Bagley <i>et al.</i> , 2020, pp 13–18.
	(b) Independent of utilization of physical GR	Bhutan ⁶⁴	
	(c) No specified regulation	Most countries	
2.1.6 GR held by Indigenous Peoples and local communities (IPLC)⁶⁵ <i>Many countries require the consent of the IPLC holding the GR</i>	ABS measures may require:		
	(a) Prior informed consent (PIC) or approval and involvement of Indigenous Peoples and Local Communities (IPLC)	South Africa; ⁶⁶ Malaysia; ⁶⁷ Kenya; ⁶⁸ Peru; ⁶⁹ Spain; ⁷⁰ Philippines; (ref) Malawi; (ref) Namibia (ref)	Kamau, 2022a, p172f.; Kamau, 2022c, p362ff.; Kamau, 2022b, p290f.; Cabrera Ormaza,2022, p110f.; Silvestri, 2022b, 451f
	(b) Compliance with community protocols/customary law	Indonesia; ⁷¹ (Madagascar?)	

	(c) Where IPLC does not exploit GR “sufficiently” or refuses to grant licence on “reasonable commercial terms and conditions”	Zambia; ⁷² Kenya (ref)	Humphries <i>et al.</i> , 2021, p27; Kamau 2022b, p281f
2.1.7 Exemptions of specific genetic resources <i>ABS measures of many countries do not apply to specific GRFA/related activities</i>	ABS measures may exempt:	Malaysia; ⁷³ France ⁷⁴	Silvestri 2022a, p53, 55; Humphries <i>et al.</i> , 2021, p28f.
	(a) GR for which ABS is governed by specialized international instrument		
	(a.1) PGRFA falling under the Annex 1/Multilateral System of the Treaty	Argentina; ⁷⁵ Peru; ⁷⁶ Philippines; (ref) Bhutan (ref)	Kamau, 2022c, pp355, 359, 370; Mahop, 2022, p468
	(b) Plant varieties protected by intellectual property rights	Portugal; ⁷⁷ Uganda; ⁷⁸ Kenya ⁷⁹	
	(c) GR arising from domesticated or cultivated species	Argentina; ⁸⁰ France ⁸¹	Silvestri, 2022a, p53; Mahop, 2022, p468
	(d) Crop wild relatives	France ⁸²	Humphries <i>et al.</i> , 2021, p29
	(e) GR subject to forestry	France ⁸³	Humphries <i>et al.</i> , 2021, p29
	(f) Biological material cultivated or bred for use as a model in research and development	Morocco ⁸⁴	Humphries <i>et al.</i> , 2021, p29
	(g) Specific categories of GR, e.g. fisheries and AnGR	Spain ⁸⁵	Silvestri, 2022b, 449f
	(h) GRFA at discretion of the government	Australia ⁸⁶	Humphries <i>et al.</i> , 2021, p29
	(i) On case-by-case basis, e.g. GR in public <i>ex situ</i> collections	e.g. in Australia’s Commonwealth areas; ⁸⁷ India ⁸⁸	Humphries <i>et al.</i> , 2021, p29, 38
	(j) GR collected by laboratories in the context of prevention, surveillance and combating risks to animal and plant health and to food safety	France ⁸⁹	Humphries <i>et al.</i> , 2021, p33; Mahop, 2022, p468
(k) Biological resources normally traded as commodities	India ⁹⁰		
(l) Derivatives accessed independently from GR	Viet Nam; ⁹¹ Malta ⁹²	Trang, Ba Nguyen T. & Thu, 2022, p329	
2.2 Activities triggering/not triggering ABS obligations			

<i>Access to GR for utilization may trigger ABS obligations.</i>			
2.2.1 Exemptions on GRFA-related activities	GRFA-related activities (explicitly or implicitly) exempted by some countries from ABS obligations:		
	(a) Agricultural activities that are not for the purpose of research and development	Malaysia ⁹³	Humphries <i>et al.</i> , 2021, p31
	(b) Use of GR for production of agricultural products for sale	South Africa ⁹⁴	Humphries <i>et al.</i> , 2021, p29f
	(c) Use of GR as commodity for final consumption	Malta; ⁹⁵ Bangladesh; ⁹⁶ Philippines ⁹⁷	Humphries <i>et al.</i> , 2021, p29f ; Mozini 2022, p78
	(d) Aquaculture or mariculture activities involving freshwater and marine species producing specimens for consumption purpose	South Africa; ⁹⁸ Australia; ⁹⁹ Malaysia; ¹⁰⁰ Spain ¹⁰¹	Humphries <i>et al.</i> , 2021, p31; Kamau, 2022a, p168
	(e) Collection of GR for use in public collections or further breeding in agriculture or forestry	Norway ¹⁰²	Humphries <i>et al.</i> , 2021, p31
	(f) Collecting broodstock for aquaculture	Australia (regulates “biological materials”)	Humphries <i>et al.</i> , 2021, p30
	(g) Collecting plant reproductive material for propagation	Australia (regulates “biological materials”)	Humphries <i>et al.</i> , 2021, p30
	(h) Production and marketing of seeds and forest plants	Spain ¹⁰³	Humphries <i>et al.</i> , 2021, p31
	(i) Collection and maintenance of samples in <i>ex situ</i> collections for conservation purposes	Spain ¹⁰⁴	Humphries <i>et al.</i> , 2021, p33
	(j) Exchanging biological resources as commodities unless used for research and development	India ; ¹⁰⁵ Namibia ; (ref) Bhutan (ref)	Humphries <i>et al.</i> , 2021, p30
	(k) Marketing livestock as regular consumer goods	Bangladesh ¹⁰⁶	Humphries <i>et al.</i> , 2021, p30
	Exempted activities if performed by specific user groups:		

2.2.3 Exemptions of activities performed by specific user groups <i>Some countries waive ABS obligations/provide for simplified procedures for activities by specific user groups.</i>	(a) Exchange among IPLC in exercise of their traditional and customary practices	Malaysia; ¹⁰⁷ Kenya; ¹⁰⁸ Namibia; (ref) Ecuador (ref)	Humphries <i>et al.</i> , 2021, p33; Kamau, 2022c, p359; Kamau, 2022b, p278
	(b) Exchange of GR/TK among IPLC for their own consumption	Guatemala; ¹⁰⁹ Uganda; ¹¹⁰ Namibia; (ref) Bhutan (ref)	
	(c) Local people and communities of the area, including growers and cultivators (unless they wish to obtain intellectual property rights(IPR))	India ¹¹¹	
	(d) Conventional breeding or traditional practices in use in agriculture, horticulture, poultry farming, dairy farming, animal husbandry or bee keeping by small-scale farmers	Malaysia ¹¹²	
	(e) Access to and utilization of GR by farmers, pastoralists and fishers according to their traditional way of life	China ¹¹³	
	(f) Non-commercial research by nationally recognized research organizations and foreign collaborators of such organizations unless intent changes	India; ¹¹⁴ Namibia; (ref) South Africa; (ref) Uganda (ref)	
	(g) Research by educational institutions	Kenya ¹¹⁵	Kamau, 2022b, p303 footnote 147
	(h) Exchanging within networks of user groups	India ¹¹⁶	Humphries <i>et al.</i> , 2021, p33
2.3 Authorization procedures applicable under ABS measures			
<i>ABS measures normally require PIC and mutually agreed terms prior to access and utilization of GR.</i>			
2.3.1 Simplified approval procedures <i>Countries may require PIC and mutually agreed terms (MAT) prior to access and utilization of GR.</i>	Countries may simplify approval procedures in several ways:		
	(a) No PIC for specific GR, e.g. GRFA	South Africa ¹¹⁷	Kamau, 2022a, p168f.
	(b) Access and utilization upon notification/ registration instead of PIC. Authorization is instead required prior to commercialization, transfer to third parties or change of initial intent	Brazil; ¹¹⁸ France; ¹¹⁹ South Africa ¹²⁰	Mozini, 2022, p74, 76; Humphries <i>et al.</i> , 2021, p35; da Silva & de Oliveira, 2018, p1; Kamau, 2022c, p366;

			Mahop, 2022, p468; Kamau, 2022a, p185f
	(c) Use of Standard Material Transfer Agreement (SMTA) for Treaty Annex 1/MLS/Art.15 PGRFA	Parties to the Treaty	
	(d) Use of SMTA for other PGRFA other than Treaty Annex 1/MLS/Art.15 PGRFA	South Africa(ref)	
	(e) Standardized access conditions for (all) BR/GR	South Africa; ¹²¹ Uganda; ¹²² Philippines ¹²³	Humphries <i>et al.</i> , 2021, p36
	(f) Framework PIC, MAT	Peru ¹²⁴	Humphries <i>et al.</i> , 2021, p36; Cabrera Ormaza, 2019, p84 & 88, Cabrera Ormaza, 2022, p106f, 110; Beck, 2022, p497, 499ff
2.3.2 Procedural simplifications for specific activities	Countries provide for simplified procedures for specific activities, such as:		
	(a) Subsistence consumption and conventional commercial consumption	Philippines ¹²⁵	
	(b) Scientific research on agrobiodiversity that does not create spin-off technology	Philippines ¹²⁶	
	(c) Activities involving no economic exploitation of products or reproductive materials arising from GR	Brazil ¹²⁷	Mozini, 2022, p82, 84ff
	(d) R&D taxonomic, conservation or biosecurity purposes	Spain; ¹²⁸ France ¹²⁹	Humphries <i>et al.</i> , 2021, p33
	(e) Development of therapeutic drugs and food security in the event there are threats to the life and health of humans, animals, and plants	Republic of Korea ¹³⁰	Humphries <i>et al.</i> , 2021, p36; Lee & Cho, 2022, 381ff

	(f) Non-commercial research conducted by national state institutions	Philippines; ¹³¹ India ¹³²	Humphries <i>et al.</i> , 2021, p34
	(g) Access to GR for non-commercial/purely scientific purposes	Argentina ¹³³	Silvestri, 2022a, p55
	(h) Taxonomic, collection and pre-breeding purposes and research projects	Mexico; ¹³⁴ South Africa ¹³⁵	Humphries <i>et al.</i> , 2021, p33 ; Kamau, 2022a, p166f.
	Measure	Country (examples)	Further reading
ELEMENT 3: ACCESS TO AND UTILIZATION OF TRADITIONAL KNOWLEDGE ASSOCIATED WITH GENETIC RESOURCES FOR FOOD AND AGRICULTURE			
3.1 Defining traditional knowledge (TK)	Some TK definitions refer to, for example:-		
<i>There are various definitions of TK in national (ABS) measures.</i>	(a) Relevant accumulated, transgenerational knowledge evolved by Indigenous Peoples and Local Communities (IPLC)	Peru ¹³⁶	Humphries <i>et al.</i> , 2021, p39ff
	(b) Relevant knowledge, experience and initiatives of native people	Viet Nam ¹³⁷	Trang, Ba Nguyen & Thu, 2022, p337
	(c) Any knowledge, not limited to a specific subject area, technical or medical field, originating from a traditional community, individual or group	Guatemala ¹³⁸	
	(d) Knowledge contained in the codified knowledge systems passed on from one generation to another including agricultural, environmental or medical knowledge	Kenya ¹³⁹	
3.1.2 Excluding from traditional knowledge (relevant to GRFA)	ABS measures may exclude:		
	(a) TK that cannot be attributed to one or more traditional communities	France ¹⁴⁰	
	(b) TK associated with GR whose properties are well known and have been used for a long time and repeatedly, outside of the traditional communities that share them	France ¹⁴¹	
	(c) TK associated with some promotion methods likely to benefit agricultural, forestry or food and seafood products	France ¹⁴²	
	(d) TK and skills associated with the distinctive signs of origin and quality of agricultural and marine products	Morocco ¹⁴³	

	(e) TK insufficiently exploited by rights holder, or to which rights holder refuses to grant a licence on reasonable commercial terms and conditions (f)	Zambia; ¹⁴⁴ Kenya ¹⁴⁵	Humphries <i>et al.</i> , 2021, p27; Kamau, 2022b, p281f
3.2 Identifying the holders of TK			
<i>Countries have established different procedures for the identification of the holders of TK</i>	Measures to assist in the identification of holders:		
	(a) Government to ensure that PIC has been obtained from “relevant community”	Malawi ¹⁴⁶	
	(b) Public entities representing the IPLCs to negotiate with users	France; ¹⁴⁷ Ethiopia; ¹⁴⁸ South Africa ¹⁴⁹	Mahop, 2022, p470f; Hailu & Kamau, 2022, p257
	(c) Biocultural protocols	India; ¹⁵⁰ Kenya; ¹⁵¹ Ecuador(ref)	Humphries <i>et al.</i> , 2021, p42
	(d) Public authority assisting in identification of knowledge holder and overseeing the agreement	Uganda; ¹⁵² South Africa (ref)	Humphries <i>et al.</i> , 2021, p42
	(e) State intervention (and guidance) to ensure that PIC has been obtained from the “relevant community”	Viet Nam; ¹⁵³ Malawi; ¹⁵⁴ Uganda; ¹⁵⁵ South Africa(ref)	Humphries <i>et al.</i> , 2021, p42f.
3.3 Procedures for obtaining prior informed consent (PIC) or approval and involvement of IPLC			
	For obtaining consent to access/use TK, ABS measures may foresee:		Humphries <i>et al.</i> , 2021, p43
	(a) Same procedures as for GR;	See above 2.3	Humphries <i>et al.</i> , 2021, p43
	(b) Licensing procedures (in laws that protect TK as form of intellectual property right);	Kenya; Peru; South Africa; Viet Nam; Zambia	Humphries <i>et al.</i> , 2021, p43
	(c) Existence of biocultural or community protocols specific to GRFA;	e.g. Peru; Romania; South Africa; Kenya	Humphries <i>et al.</i> , 2021, p43; Cocchiaro & Rutert, p29–40; Kamau, 2022b, p290f, 306

	(d) Involvement/consultation of IPLC in neighbouring countries.	Kenya ¹⁵⁶	Humphries <i>et al.</i> , 2021, p44; Kamau, 2022b, p306
	Measure	Country (examples)	Further reading
ELEMENT 4: FAIR AND EQUITABLE SHARING OF BENEFITS			
4.1 Scope of benefit-sharing obligations			
<i>Benefit-sharing may apply to GR/TK acquired, collected, used or obtained either directly or indirectly and found in both in situ and ex situ conditions</i>			
4.1.1 Temporal scope	Benefit-sharing may apply to:		
	(a) GR/TK accessed after entry into force of ABS measure	most countries	
	(b) Newly utilized GR/TK accessed prior to entry into force of ABS measure	Malaysia ¹⁵⁷	
4.1.2 Exemptions from benefit-sharing obligations	ABS measures may exempt from benefit-sharing obligations, for example:		
	(a) Resources not falling under (access provisions of) ABS measures	See 2.1	
	(b) Activities not considered “utilization”	See 2.2	
	(c) Traditional farmers and their cooperatives	Brazil ¹⁵⁸	Humphries <i>et al.</i> , 2021, p45 ; Mozini, 2022, p86
	(d) Non-commercial research	Australia ¹⁵⁹	Humphries <i>et al.</i> , 2021, p45
4.2 Fair and equitable			
4.2.1 Determination of benefits	ABS measures may:		
	(a) Provide detailed modalities for benefit-sharing	India; ¹⁶⁰ South Africa(ref)	Humphries <i>et al.</i> , 2021, p45
	(b) Mandate competent authority to determine benefit-sharing modalities on case-by-case basis	Rwanda; ¹⁶¹ Solomon Islands ¹⁶²	Humphries <i>et al.</i> , 2021, p45

4.2.2 Streamlined benefit-sharing	ABS measures may provide for simplified benefit-sharing, for example, for:		
	(a) Scientific, non-commercial research on agrobiodiversity	Philippines ¹⁶³	Humphries <i>et al.</i> , 2021, p45
	(b) Purely scientific research purposes	Argentina ¹⁶⁴	Silvestri, 2022a, p62f.
	(c) For forest genetic resources (deferral of benefit-sharing arrangements until there are breeding results)	Spain ¹⁶⁵	Humphries <i>et al.</i> , 2021, p32
4.2.3 Sharing monetary and/or non-monetary benefits resulting from GRFA	ABS measures may specify benefit-sharing modalities for GRFA:		
	(a) Preference and identification of benefits that are of particular relevance to the food and agriculture sector	India; ¹⁶⁶ Uganda; ¹⁶⁷ Malaysia; ¹⁶⁸ Belgium (Walloon Region); ¹⁶⁹ Zambia ¹⁷⁰	Humphries <i>et al.</i> , 2021, p48
	(b) Mutual exchanges of GRFA within or between communities to sustain food or livelihood systems as a benefit	Mutual exchanges, e.g. India; ¹⁷¹ Kenya; ¹⁷² Traditional uses, e.g. Ethiopia ¹⁷³	Humphries <i>et al.</i> , 2021, p49
4.2.4 Facilitating benefit-sharing through model clauses	Examples include:		
	National model benefit-sharing clauses	Benin; ¹⁷⁴ Cameroon; ¹⁷⁵ France; ¹⁷⁶ South Africa; ¹⁷⁷ Bhutan;(ref) Australia(ref)	Humphries <i>et al.</i> , 2021, p46
4.3 Beneficiaries			
<i>ABS measures often do not define in detail the beneficiaries (those with whom benefits should be shared) or the purposes for which benefits should be used. However, some ABS measures provide for national benefit-sharing funds for specific situations.</i>			
4.3.1 National benefit-sharing funds	ABS measure may establish benefit-sharing funds for:		
	(a) Conservation of and further research in GR and TK	South Africa; ¹⁷⁸ Bhutan;(ref) Ecuador (ref)	Kamau, 2022a, p172f, 200f.
	(b) Support of community conservation initiatives	Bhutan (ref)	National Biodiversity Centre, Bhutan, 2018, p32; Humphries <i>et al.</i> , 2021, p47

	(c) Support IPLCs and traditional farmers in the sustainable management and conservation of GR and the development and maintenance of diverse farming systems that enhance the sustainable use of GR	Brazil; ¹⁷⁹ Argentina (ref)	Humphries <i>et al.</i> , 2021, p47f.; Mozini, 2022, p86
	Measure	Country (examples)	Further reading
ELEMENT 5 : COMPLIANCE AND MONITORING			
5.1 Monitoring			
	(a) GRFA-specific checkpoints	e.g. Bhutan;(ref) Estonia;(ref) Hungary;(ref) Kenya;(ref) Republic of Korea ¹⁸⁰	Humphries <i>et al.</i> , 2021, p53
	(b) Established monitoring tools	India (ref)	
5.2 User country compliance measures			
5.2.1 General compliance measures	(a) Specific measures to exercise due diligence to show that GR utilized in the country have been accessed according to applicable national laws of the providing country (providing the provider country is party to the Nagoya Protocol)	EU ¹⁸¹	Humphries <i>et al.</i> , 2021, p53
	(b) Specific measures to ensure GR used in the country have been accessed according to applicable international agreements, including through the use of the Treaty's SMTA for Annex 1/MLS PGRFA	Norway ¹⁸²	
	(c) Designation of user compliance-focused checkpoints	Malaysia; ¹⁸³ South Africa; ¹⁸⁴ Bhutan (ref)	
	(d) Requirement to report to the checkpoint or produce the access permit	Malaysia; ¹⁸⁵ Republic of Korea; ¹⁸⁶ South Africa ¹⁸⁷	
	(e) Requirement of the checkpoint to inform Competent National Authority (CNA) or relevant Competent Authority (CA) in writing of the production of the permit	Malaysia ¹⁸⁸	
	(f) Requirement of any person applying for a patent based on biological resources (BR) or TK to either notify the CA, make a statement if the patent relates to indigenous GR or TK, or furnish CA with proof	Malaysia; ¹⁸⁹ South Africa ¹⁹⁰	

	(g) Requirements of any person applying for a plant breeders right/plant variety protection to bring the authorization of the relevant authorities	Argentina; (ref) New Zealand?	
	(h) Obligation on any person wishing to access or commercialize foreign BR or TK from a Nagoya Protocol party to ensure compliance with that party's laws – if that party subjects access to permit	Malaysia; ¹⁹¹ Republic of Korea ¹⁹²	
	(i) Measure for checkpoint communiqué	Malaysia ¹⁹³	
	(j) Measures permitting relevant authorities to investigate offences	Malaysia; ¹⁹⁴ Republic of Korea ¹⁹⁵	
	(k) Measure to encourage fair and equitable benefit-sharing	Republic of Korea ¹⁹⁶	
5.2.2 Exceptions	<p>Exceptions to user country compliance measures may be applied where:</p> <p>(a) States do not claim or exercise sovereign rights over GR¹⁹⁷</p> <p>(b) Providing state is not a party to the Nagoya Protocol¹⁹⁸</p> <p>(c) Providing state has not established access measures¹⁹⁹</p> <p>(d) GR are accessed prior to entry into force of the Nagoya Protocol²⁰⁰</p> <p>(e) GR are governed by specialized international instruments and utilized according to the purposes foreseen by those instruments²⁰¹</p> <p>(f) GR are traded and exchanged as commodities²⁰²</p> <p>(g) Pathogenic GR and pests are introduced unintentionally to the country²⁰³</p> <p>(h) TK is not associated with utilization of accessed GR</p> <p>(i) Activities do not fall under “utilization”²⁰⁴</p> <p>(j) there is no ascertainable level of continuity between the derivative and the GR from which it was obtained for R&D activities on derivatives²⁰⁵</p> <p>(k) Only information on GR is used²⁰⁶</p> <p>(l) There is utilization outside of the relevant jurisdiction²⁰⁷</p>	EU and Member States ²⁰⁸	Winter, 2022; Greiber & Frederichs, 2022

¹ Loi sur l'accès aux ressources génétiques et connaissances traditionnelles de l'union des Comores, 2020, Art. 5.

²² Direction Générale des Eaux, Forêts et Chasse/Ministère du Cadre de Vie et du Développement Durable (General Directorate of Water, Forests and Hunting/Ministry of Living Environment and Sustainable Development) is the only designated CNA for the country responsible for all genetic resources. See <https://absch.cbd.int/en/countries/BJ> (accessed 12 October 2022).

³ The Nagoya Protocol (Implementation) Act, 2016, Art. 4 (read together with Regulation of the Minister for Agriculture of 31 March 2016, No. WJZ/15145152 and Decree of the Minister for Agriculture of 31 March 2016, No. WJZ/15163191).

⁴ Decreto-Lei-122-2017, Art. 4.1. See also <https://absch.cbd.int/en/countries/PT> (accessed 15 October 2022).

APPENDIX D

DRAFT ONLINE QUESTIONNAIRE ON THE IMPLICATIONS OF ACCESS AND BENEFIT-SHARING MEASURES FOR THE USE AND EXCHANGE OF GENETIC RESOURCES FOR FOOD AND AGRICULTURE AND FOR BENEFIT-SHARING

Part A: General information	
1	<p>Please provide some background information about yourself and/or the institution you work for or represent. Please identify your role in responding to this survey.</p> <p>GROUP I (Commission Members/National Focal Points or Coordinators):</p> <ul style="list-style-type: none"> • FAO Commission Member • National Focal Point for the Commission on Genetic Resources for Food and Agriculture • National Coordinator for Animal Genetic Resources for Food and Agriculture • National Focal Point for Aquatic Genetic Resources for Food and Agriculture • National Focal Point for Forest Genetic Resources • National Focal Point for Plant Genetic Resources for Food and Agriculture • National Focal Point for Biodiversity for Food and Agriculture • National Focal Point for the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising from their Utilization to the Convention on Biological Diversity • National Focal Point for the International Plant Treaty on Plant Genetic Resources for Food and Agriculture • Other (<i>please provide details</i>) <p>GROUP II (Stakeholders/user communities):</p> <ul style="list-style-type: none"> • Intergovernmental organization • Public research organization/Academia/University • Genebank collection • Farmer organization • Fisher organization • Livestock keeper organization • Forester organization • Private sector • Responding as an individual e.g. researcher • Other (<i>please provide details</i>) <p>GROUP III (Indigenous Peoples and/or Local Communities): <i>Please provide details if you so wish</i></p>
2	<p>Please provide the title and address of the entity you represent or where you work.</p> <p>Full name</p> <p>Title</p> <p>Name of entity</p> <p>Function</p> <p>Street</p> <p>City</p> <p>Postcode</p> <p>Country</p>
3	<p>May we contact you for further information?</p> <p>Yes, no</p> <p>If yes, please provide contact information:</p> <p style="padding-left: 20px;"><input type="radio"/> Phone</p>

	o Email
Part B.1: Application of national legislative, administrative and policy measures on access and benefit-sharing to genetic resources for food and agriculture	
4	GROUP I: Does your country have ABS measures? Yes, no, I don't know If yes, do they require PIC? Yes, no, I don't know If yes, do they require fair and equitable benefit-sharing? Yes, no, I don't know
4 bis	GROUP I: Do the ABS measures of your country apply to genetic resources for food and agriculture (GRFA)? Yes, no, I don't know
4 ter	GROUP I: Do the ABS measures of your country require compliance with the ABS measures of other countries providing access to genetic resources? Yes, no, I don't know
5	GROUP I: Do the ABS measures of your country include special provisions for (specific or all) GRFA? Yes, no, I don't know
	(a) If yes, please identify the genetic resources for which the ABS measures of your country provide special provisions: <ul style="list-style-type: none"> • All genetic resources for food and agriculture • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
	(b) If yes, please identify the type(s) of special provisions and the GRFA to which they apply: <p>Exemptions of GRFA from scope of the ABS measures If yes, please specify relevant GRFA</p> <p>Special (e.g. simplified) authorization procedures for GRFA and/or activities related to GRFA If yes, please specify procedure, relevant GRFA and/or activities related to GRFA</p> <p>Special provisions on benefit-sharing If yes, please specify provisions and relevant GRFA</p> <p>Other provisions for GRFA If yes, please specify provision(s) and relevant GRFA</p>
6	GROUP I: Do the ABS measures of your country apply to privately held genetic resources? Yes, no, I don't know? (a) If yes, do they also apply to privately held GRFA? Yes, no, I don't know
7	GROUP I: Have efforts been made to inform stakeholders who utilize GRFA for research and development on ABS measures, as they apply to GRFA? Yes, no, I don't know
7 bis	GROUP II: Have you been informed on ABS measures as they apply to GRFA? Yes, no, I don't know
	If yes, how have stakeholders been informed? <ul style="list-style-type: none"> • ABS Clearinghouse (https://absch.cbd.int/en/)

	<ul style="list-style-type: none"> • National Clearinghouse • Information seminars • Guidance documentation • Other (<i>if other, please provide details</i>)
8	<p>GROUP I: Has your country granted ABS permits for the use of genetic resources for research and development? Yes, no, I don't know</p>
	<p>(a) If yes, how many ABS permits has your country granted for the use of GRFA for research and development?</p> <ul style="list-style-type: none"> • Less than 10 • Between 11 and 50 • More than 50 • I don't know
	<p>(b) Please specify the GRFA for which ABS permits have been granted by your country (<i>Please specify all that apply</i>):</p> <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture • I don't know
<p>Part B.2 Application of measures on access and benefit-sharing for traditional knowledge associated with genetic resources (TK) that is held by indigenous peoples and/or local communities</p>	
10	<p>GROUP I: Does your country have ABS measures in place requiring that TK that is held by indigenous peoples and/or local communities is accessed with their prior informed consent (PIC) or their approval and involvement and that mutually agreed terms (MAT) have been established? Yes, no, I don't know</p>
10 bis	<p>GROUP III: Does your country have ABS measures in place requiring that TK is accessed with your prior informed consent (PIC) or your approval and involvement and that mutually agreed terms (MAT) have been established? Yes, no, I don't know</p>
11	<p>GROUP I: Have efforts been made to inform stakeholders on ABS measures, as they apply to TK? Yes, no, I don't know If yes, how?</p> <ul style="list-style-type: none"> • ABS Clearinghouse (https://absch.cbd.int/en/) • National Clearinghouse • Information seminars • Guidance documentation • Other (<i>if other, please provide details</i>)
11 bis	<p>GROUPS II & III: Have you been informed on ABS measures, as they apply to TK? Yes, no, I don't know If yes, how?</p> <ul style="list-style-type: none"> • ABS Clearinghouse (https://absch.cbd.int/en/) • National Clearinghouse • Information seminars • Guidance documentation • Other (<i>if other, please provide details</i>)
12	<p>GROUP III: Have you or your community approved access to TK?</p>

	Yes, no, I don't know
	(a) If yes, in how many cases have you or your community approved access to TK associated with genetic resources? <ul style="list-style-type: none"> • Less than 5 • Between 5 and 10 • More than 10
	(b) Have you or your community approved access to TK associated with any of the following genetic resources? (<i>Please specify all that apply</i>) <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
12 bis	GROUP I: Has access to TK been approved by indigenous peoples and/or local communities in your country?
	If yes, in how many cases have indigenous peoples and/or local communities approved access to TK associated with genetic resources? <ul style="list-style-type: none"> • Less than 10 • Between 10 and 50 • More than 50
Part B.3 Application of measures for access to genetic resources where indigenous peoples and/or local communities have the established right to determine access to such resources	
13	GROUPS I & II: Does your country have measures in place, which provide indigenous peoples and/or local communities with the right to determine access to its genetic resources? Yes, no, I don't know If yes, are there measures in place in your country which aim at ensuring that the PIC or approval and involvement of indigenous peoples and/or local communities is obtained for access to their genetic resources? Yes, no, I don't know
13 bis	GROUP III: Does your country have measures in place which provide your community with the right to determine access to its genetic resources? Yes, no, I don't know If yes, are there measures in place in your country which aim at ensuring that the PIC or approval and involvement of your community is obtained for access to your genetic resources? Yes, no, I don't know
14	GROUPS I–III: Are stakeholders informed of the need for consultation or approval of indigenous peoples and/or local communities when seeking access to their genetic resources? Yes, no, I don't know
	If yes, how are stakeholders informed? <ul style="list-style-type: none"> • ABS Clearinghouse (https://absch.cbd.int/en/) • National Clearinghouse • Information seminars • Guidance documentation • Other (<i>if other, please provide details</i>)
15	GROUP III: Have you or your community approved access to the genetic resources of your community? Yes, no, I don't know
	(a) If yes, in how many cases has your community approved access to its genetic resources? <ul style="list-style-type: none"> • Less than 10

	<ul style="list-style-type: none"> • Between 10 and 50 • More than 50
	<p>(b) Has your community approved access for any of the following genetic resources? (<i>Please specify all that apply</i>)</p> <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
Part C.1: Exchange experience – GRFA	
16	GROUPS I–III: Do you use or exchange GRFA for research and development? Yes, no, I don't know
	<p>(a) If yes, please specify which (<i>Please specify all that apply</i>):</p> <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
	<p>(b) Please identify the GRFA you are most knowledgeable about or familiar with (<i>Please select only one</i>):</p> <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
<i>For the remainder of this part, please limit your answers to the GRFA you have identified as the one you are most knowledgeable about or familiar with.</i>	
17	GROUPS I–III: During the last five years, have you/your institution/your community exchanged (provided or received) GRFA? Yes, no, I don't know
	(a) If yes, how many exchanges on average per year?
	(b) If yes, how many samples on average per year?
	<p>(c) With whom of the following have you exchanged (provided or received) GRFA during the last five years? (<i>Please specify all that apply</i>)</p> <ul style="list-style-type: none"> • Intergovernmental organization • Domestic public research organization/academia/university • Foreign public research organization/academia/university • Domestic indigenous people/local community • Foreign indigenous people/local community • Domestic genebank collection • Foreign genebank collection • Domestic private sector • Foreign private sector • Domestic individual, e.g. researcher • Foreign individual, e.g. researcher • Other (<i>please specify</i>)
	(d) Have the exchanges been made pursuant to ABS measures?

	<ul style="list-style-type: none"> • Yes, always • Yes, in most cases • Sometimes • Rarely • Never • Don't know
	(e) If yes, how long, on average, did it take to negotiate the agreement?
	(f) After conclusion of the agreement, how long, on average, did it take before GRFA could be accessed?
18	GROUPS I–III: Have you received any monetary or non-monetary benefits in return for providing access to GRFA?
	Yes, no, no but expecting
	If yes, please specify which: <ul style="list-style-type: none"> • Capacity development/training • Results of research/development on the GRFA provided • Transfer of or access to technology • Other non-monetary benefits (<i>please specify</i>) • Monetary benefits (<i>please specify if you wish</i>)
19	GROUP II: Have you provided one or more of the following in return for receiving GRFA?
	<ul style="list-style-type: none"> • Capacity development/training • Results of research/development on the GRFA provided • Transfer of or access to technology • Other non-monetary benefits (<i>please specify</i>) • Monetary benefits (<i>please specify if you wish</i>)
20	GROUPS I–III: During the last five years, have you ever been denied access to GRFA as a result of ABS measures?
	(a) If yes, what were the reasons for the denial? <ul style="list-style-type: none"> • I did not receive a reply • I received a reply, but no reasons were given • Absence of ABS measures or implementing regulations • No agreement was reached on access modalities and/or benefit-sharing • Non-compliance with applicable rules and/or procedures • Other reasons (<i>please specify</i>)
	(b) During the last five years, how many and what percentage of your access requests have been denied?
	(c) Countries where access to GRFA has been denied are located in the following region(s) (<i>Please specify all that apply</i>) ²⁰⁸ : <ul style="list-style-type: none"> • Africa • Asia • Europe • Latin America and the Caribbean • Near East • North America • Southwest Pacific
20 bis	GROUPS I–III: Could you share additional information about factors contributing to you and your community being able to obtain access to GRFA or not?
21	GROUP I: In the last five years has the competent authority in your country denied access to GRFA as a result of ABS measures?
	Yes, no, I don't know
	(a) If yes, for which reasons?

	<ul style="list-style-type: none"> • Absence of ABS measures or implementing regulations • No agreement was reached on access modalities and/or benefit-sharing • Other reasons (<i>please specify</i>)
	(b) During the last five years, how many and what percentage of requests for access to GRFA have you rejected?
Part C.2: Exchange experience – TK	
22	GROUPS I–III: Do you use or exchange TK? Yes, no, I don't know
	(a) If yes, please specify to which GRFA the TK applies (<i>Please specify all that apply</i>): <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
	(b) Please identify the GRFA you are most knowledgeable about or familiar with (<i>Please select only one</i>): <ul style="list-style-type: none"> • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture
<i>For the remainder of this part, please limit your answers to TK associated with the GRFA you have identified as the one you are most knowledgeable about or familiar with.</i>	
23	GROUPS I–II: During the last five years, have you/your institution/your community exchanged (provided or received) TK? Yes, no, I don't know
	(a) If yes, how many exchanges on average per year?
	(b) With which of the following have you exchanged (provided or received) TK during the last five years? (<i>Please specify all that apply</i>) <ul style="list-style-type: none"> • Intergovernmental organization • Domestic public research organization/academia/university • Foreign public research organization/academia/university • Domestic indigenous people/local community • Foreign indigenous people/local community • Domestic genebank collection • Foreign genebank collection • Domestic private sector • Foreign private sector • Domestic individual, e.g. researcher • Foreign individual, e.g. researcher • Other (<i>please specify</i>)
	(c) Have the exchanges been made pursuant to ABS measures? <ul style="list-style-type: none"> • Yes, always • Yes, in most cases • Sometimes • Rarely • Never • Don't know
	(d) If yes, how long, on average, did it take to negotiate the agreement?

	(e) After conclusion of the agreement, how long on average did it take before TK could be accessed?
24	GROUPS I & II: Have you provided one or more of the following in return for receiving TK that was held by indigenous peoples and/or local communities? Yes, no, no but expecting
	<ul style="list-style-type: none"> • Capacity development/training • Results of related research/development • Transfer of or access to technology • Other non-monetary benefits (<i>please specify</i>) • Monetary benefits (<i>please specify if you wish</i>)
25	GROUP III: Have you received one or more of the following in return for providing TK?
	<ul style="list-style-type: none"> • Capacity development/training • Results of related research/development • Transfer of or access to technology • Other non-monetary benefits (<i>please specify</i>) • Monetary benefits (<i>please specify if you wish</i>)
26	GROUPS I–II: During the last five years, have you been denied access to TK as a result of ABS measures?
	(a) If yes, what have been the reasons for the denial? (<i>Please specify all that apply</i>) <ul style="list-style-type: none"> • I did not receive a reply • I received a reply, but no reasons were given • Absence of ABS measures or implementing regulations • No agreement was reached on access modalities and/or benefit-sharing • Non-compliance with applicable rules and/or procedures • Other reasons (<i>please specify</i>)
	(b) During the last five years, how many and what percentage of your requests to access TK have been denied?
	(c) Countries where access to TK has been denied are located in the following region(s) (<i>Please specify all that apply</i>): ²⁰⁸ <ul style="list-style-type: none"> • Africa • Asia • Europe • Latin America and the Caribbean • Near East • North America • Southwest Pacific
26 bis	GROUP I–III: Could you share additional information about factors contributing to you being able to obtain access to TK or not?
27	GROUPS I & III: In the last five year's has access to TK in your country been denied as a result of the ABS measures? Yes, no, I don't know
	(a) If yes, for which reasons? <ul style="list-style-type: none"> • Absence of ABS measures or implementing regulations • No agreement was reached on access modalities and/or benefit-sharing • Other reasons (<i>please specify</i>)
	(b) During the last five years, how many and what percentage of requests for access to TK have been rejected?
Part D: ABS Elements	
28	GROUPS I–III: Are you familiar with the publication <i>Elements to facilitate domestic implementation of access and benefit-sharing for different subsectors of genetic resources for food and agriculture with explanatory notes</i> (ABS Elements) by FAO in 2019 Yes, no

	<p>(a) If yes, how important have the ABS Elements been in guiding interactions on ABS policy development and implementation in your opinion?</p> <ul style="list-style-type: none"> • Very important • Important • Somewhat important • Not important • I don't know
	<p>(b) If yes, please specify the genetic resources for which the ABS Elements have been guiding interactions on ABS policy development and implementation?</p> <ul style="list-style-type: none"> • All genetic resources for food and agriculture • Animal genetic resources for food and agriculture • Plant genetic resources for food and agriculture • Aquatic genetic resources for food and agriculture • Forest genetic resources for food and agriculture • Microorganism genetic resources for food and agriculture • Invertebrate genetic resources for food and agriculture • I don't know
29	<p>GROUP I: In using the ABS Elements in the implementation or development of ABS measures, which challenges, if any, have you face?</p>

APPENDIX E

LIST OF DOCUMENTS

Working documents

CGRFA/TTLE-ABS-6/23/1 Rev.1	Provisional agenda and time-table
CGRFA/TTLE-ABS-6/23/2	Access and benefit-sharing and genetic resources for food and agriculture
CGRFA/TTLE-ABS-6/23/3	Digital sequence information and genetic resources for food and agriculture

Information documents

CGRFA/TTLE-ABS-6/23/Inf.1	Members of the Team of Technical and Legal Experts on Access and Benefit-Sharing
CGRFA/TTLE-ABS-6/23/Inf.2 Rev.1	Access and benefit-sharing: comments and inputs
CGRFA/TTLE-ABS-6/23/Inf.2 Add.1	Access and benefit-sharing: comments and inputs - Addendum
CGRFA/TTLE-ABS-6/23/Inf.3	The role of digital sequence information in the conservation and sustainable use of genetic resources for food and agriculture: Opportunities and challenges
CGRFA/TTLE-ABS-6/23/Inf.4	The role of digital sequence information: comments on an inputs to the draft study
CGRFA/TTLE-ABS-6/23/Inf.4 Add.1	The role of digital sequence information: comments on an inputs to the draft study - Addendum
CGRFA/TTLE-ABS-6/23/Inf.5	Report of the Twelfth Session of the Intergovernmental Technical Working Group on Animal Genetic Resources for Food and Agriculture
CGRFA/TTLE-ABS-6/23/Inf.6	Report of the Fourth Session of the Intergovernmental Technical Working Group on Aquatic Genetic Resources for Food and Agriculture
CGRFA/TTLE-ABS-6/23/Inf.7	Report of the Seventh Session of the Intergovernmental Technical Working Group on Forest Genetic Resources
CGRFA/TTLE-ABS-6/23/Inf.8	Report of the Eleventh Session of the Intergovernmental Technical Working Group on Plant Genetic Resources for Food and Agriculture – Advance copy
CGRFA/TTLE-ABS-6/23/Inf.9	List of documents

Background Study Papers

Background Study Paper No. 70: Survey of access and benefit-sharing country measures accommodating the distinctive features of genetic resources for food and agriculture and associated traditional knowledge

Background Study Paper No. 68: Exploratory Fact-Finding Scoping Study on “Digital Sequence Information” on Genetic Resources for Food and Agriculture

Other documents

ABS Elements: Elements to Facilitate Domestic Implementation of Access and Benefit-Sharing for Different Subsectors of Genetic Resources for Food and Agriculture with Explanatory Notes
