NOTIFICACIÓN

Estrategia de desarrollo de la capacidad del Tratado internacional para 2023-2030 – proyecto del Plan de acción

Estimado Señor/Señora:

Me complace referirme a la Resolución 10/2023, por la que el Órgano Rector, entre otras cuestiones, me solicitó elaborar el proyecto del Plan de acción para la implementación de la Estrategia de desarrollo de la capacidad, bajo la orientación de la Mesa y en consulta con las Partes Contratantes, así como con las partes interesadas pertinentes, con el propósito de precisar las acciones que se espera que la Secretaría lleve a cabo de acuerdo con los principios rectores aplicables.¹

Se adjunta a esta notificación el **proyecto inicial del Plan de acción**, junto con un [formulario rellenable](#) para insertar **comentarios y aportes**. Los Puntos focales nacionales pueden considerar la posibilidad de circular el proyecto del Plan de acción entre las partes interesadas pertinentes en sus respectivos países, según lo consideren apropiado, con el fin de recopilar la mayor cantidad posible de comentarios.

El proyecto del Plan de acción, una vez finalizado tras las consultas pertinentes, se presentará junto con el proyecto de Estrategia para la consideración del Órgano Rector en su Undécima Reunión.

La Mesa de la Undécima Reunión finalizó el proyecto de la Estrategia, en cumplimiento de la solicitud del Órgano Rector, y en esta etapa no está abierto a más comentarios ni aportes. Para facilitar la referencia, el proyecto de la Estrategia de desarrollo de la capacidad puede consultarse [aquí](#).

Con el fin de preparar la documentación para la Undécima Reunión de manera oportuna, le agradecería que enviara sus comentarios y aportes al proyecto del Plan de acción antes del **11 de abril de 2025**.

Para cualquier consulta o solicitud de información adicional, póngase en contacto con la Secretaría del Tratado Internacional en PGRFA-Treaty@fao.org.

Aprovecho la oportunidad para reiterarle a Usted el testimonio de mi alta y distinguida consideración.

Kent Nnadozie
Secretario

Tratado Internacional sobre los Recursos Fitogenéticos
para la Alimentación y la Agricultura

¹ [Resolución 10/2023 – Estrategia de Desarrollo de la Capacidad del Tratado Internacional para 2023-2030](#)

**DRAFT ACTION PLAN OF THE CAPACITY DEVELOPMENT
STRATEGY OF THE INTERNATIONAL TREATY
(2026-2030)**

I. BACKGROUND

1. Through Resolution 10/2023, the Governing Body requested the Secretary, under the guidance of the Bureau, to finalize the draft Capacity Development Strategy (the Strategy) and develop the draft Action Plan for the implementation of the Strategy.²
2. While the Bureau reviewed the updated draft Strategy, it advised the Secretary to develop the draft Action Plan, as requested by the Governing Body, and circulate to Contracting Parties and stakeholders for inputs and comments.
3. This note provides the rationale and describes the structure and content of the draft Action Plan that the Secretary developed. The first draft Action Plan is contained in the Annex to this note.

II. THE RATIONALE AND CONTENT OF THE DRAFT ACTION PLAN

4. The Governing Body affirmed the importance of accompanying the Strategy with an Action Plan to make the Strategy operational.
5. The draft Action Plan specifies the roles that the Secretariat, Contracting Parties and other relevant stakeholders play in implementing the Strategy.
6. The draft Action Plan consists of a series of activities matched with clear and concise tasks and timelines.
7. As requested by the Governing Body, the draft Action Plan is aligned with the ten Capacity Development Strategy Approaches (CDSA), the seven Guiding Principles (GPs) and the seven outcomes of the draft Capacity Development Strategy of the International Treaty (CDS).

Contracting Parties

8. The draft Action Plan reflects the leading role of Contracting Parties in policy and technical processes for the implementation of the International Treaty. Contracting Parties may invite the other key players for the implementation of the Strategy, as indicated in section VII of the draft Strategy, i.e. beneficiaries and stakeholders, regional and international providers, donors, to align with and support the actions of the Contracting Parties.

Secretariat

9. The Governing Body requested that the Action Plan clarify what actions the Secretariat is expected to undertake according to the applicable guiding principles of the Strategy.
10. Subject to the availability of resources, the Secretariat will contribute to making the Strategy operational by facilitating cooperative implementation of the Strategy by Contracting Parties and other key players. Accordingly, the draft Action Plan contains one key activity by the Secretariat, that is, the gathering and sharing of information on existing capacity development activities.

² <https://openknowledge.fao.org/server/api/core/bitstreams/1c8c7084-23d8-4336-8e69-0a8ad418dd78/content>.

11. Such activity will be given effect through an online repository/clearing house developed and made available by the Secretariat for all stakeholders to upload information and materials on capacity development for implementation of the International Treaty. The information will form the basis for monitoring and analysing implementation of the Strategy.

12. According to the Strategy, monitoring and review are key to understand progress in implementation, including by identifying challenges and making adjustments, as may be needed. Another key facilitating activity by the Secretariat would consist of the development of indicators for the Strategy. The activity will build on existing indicators, monitoring, review and reporting tools and processes as well as with the inputs of subsidiary bodies and capacity development stakeholders.

13. The Secretariat will also assist Contracting Parties to ensure that relevant National Action Plans are aligned with the Strategy and provide technical support to help countries with their assessment.

Synergies

14. With regard to the finalization of the draft Strategy, the Governing Body requested the Secretary to take into account other instruments and bodies, including the Convention on Biological Diversity and, in particular, the Kunming-Montreal Global Biodiversity Framework and the related Long-Term Strategic Framework for Capacity Building and Development, as well as the Commission on Genetic Resources for Food and Agriculture (the Commission) and, in particular, the capacity gap and needs identified in the Third Report on the State of the World's Plant Genetic Resources for Food and Agriculture (Third Report).

15. In response to that request, the draft Action Plan indicates synergies with the CBD Capacity Framework.

16. With regard to the Commission, an activity by the Secretariat in the draft Action Plan is dedicated to cross-analysing the capacity gaps and needs identified in the Third Report with those emerging from the implementation of the International Treaty, and to monitoring the impact of capacity development activities of the International Treaty towards reducing such gaps and needs.

DRAFT ACTION PLAN

A. Activities and Tasks to be undertaken by the **Secretariat**

I. **Activity: Landscape analysis of existing capacity development activities**

Tasks: By 2027

- By 2026, develop an interactive web portal
- By 2027, develop the architecture of a portal for stakeholders to share capacity development information, organized by thematic areas

Related Capacity Development Strategy Approaches (3,4,5,6,7,8,9)

CBD Synergies: CBD Long Term Strategic Framework for Capacity Building and Development (CBD-SF), mutual supportiveness, reporting

II. **Activity: Development of indicators for monitoring the Strategy**

Tasks: By 2028

- By 2027, establish an informal group of experts
- By 2028, establish the monitoring framework for the Strategy

Related Capacity Development Strategy Approaches (9,10)

CBD Synergies: CBD-SF, mutual supportiveness, monitoring and evaluation

III. **Activity: Joint capacity development initiatives with the CGRFA Secretariat**

Tasks: By 2030

- By 2028, cross-analysis of SoW and Treaty capacity data
- By 2029, joint resource mobilization for Third Global Plan of Action
- By 2030, joint assessment of capacity initiatives

Related Capacity Development Strategy Approaches (1,2,3,4,5,10)

B. Activities and Tasks to be undertaken by **Contracting Parties and other stakeholders**

I. **Activity: Relevant National Action Plans aligned with the Capacity Development Strategy**

Tasks: By 2027

- By 2026, determine priority capacity development needs; map existing resources for capacity development; develop a capacity mobilization strategy
- By 2027, integrate the above tasks into relevant National Action Plans, with milestones and monitoring
- By 2029, assess the status of implementation of National Action Plans
- By 2030, document the outputs and results of the National Action Plans, including through the portal developed by the Secretariat

Related Capacity Development Strategy Approaches (1,2,7,8,9,10)

CBD Synergies: CBD-SF, country ownership, inclusive analysis of existing capacity and needs

II. **Activity: Assess scientific and technical capacities at national and sub-national levels for transfer of technologies**

Tasks: By 2028

- By 2026, identify and prioritize technologies in accordance with the Article

13.2b of the International Treaty; assess scientific and technical capacities for prioritised technologies

- By 2027, develop a module to integrate capacity development with technology transfer, for the relevant National Action Plans

Related Capacity Development Strategy Approaches (1,2,7,8)

CBD Synergies: CBD-SF, synergies between capacity building, technical and scientific cooperation and technology transfer

III. Activity: Establish or participate in regional partnerships and networks

Tasks: By 2029

- By 2026, identify key regional stakeholders and partnerships; identify existing training resources
- By 2027, develop joint work plans of International Treaty regional training workshops; develop baseline training materials
- By 2030, disseminate outputs, results and best practices at regional levels, including through the portal developed by the Secretariat

Related Capacity Development Strategy Approaches (4, 5,6,7,8,10)

CBD Synergies: CBD-SF, regional action plans and programmes

IV. Activity: Strengthen collaboration between public and private institutions

Tasks: By 2030

- By 2027, identify key public and private sector institutions working in relevant areas related to food and agriculture
- By 2030, disseminate the outputs, results and best practices of public-private collaborations for capacity development, including through the Clearing House mechanism

Related Capacity Development Strategy Approaches (1,2,4,5,8,10)

CBD Synergies: CBD-SF, private sector engagement
