

Model case questionnaire

1. Identification

- 1.1. Model case type
- 1.2. Title
- 1.3. Participating institutions [For each one, please provide: role, name, address, country, contact person]
 - Project Lead
- 1.4. Geographic coverage [global, regional (specify), national (specify) sub-national (specify)]
Coverage:

Countries:
- 1.5. Funding [BSF, Donor (specify)]
Donor:
- 1.6. Duration

2. Description

- 2.1. Purpose/Goal
- 2.2. Description of main activities
- 2.3. Crops involved
- 2.4. Main activities [conservation, C&E, breeding, genomics, ...]
- 2.5. Beneficiaries [plant breeders, researchers, national inventories, farmers, universities...]
- 2.6. Project impact
- 2.7. Do you have PowerPoint presentations or PDF documents describing the project, its purpose and its results? If yes, please attach or provide download URL(s)

Global Information System (GLIS) and use of DOIs

- 2.8. Has the Global Information System and the DOIs helped to improve the documentation of material or its visibility?
- 2.9. Have GLIS/DOIs facilitated the collaboration among partners and stakeholders?
- 2.10. Has the use of DOIs resulted in an improved connection of datasets within the same organization or across organizations?

- 2.11. How many DOIs did you register so far?
<1000 1000->5,000 >5,000
- 2.12. How did you register those DOIs?
Excel template Toolkit Own implementation of XML protocol
- 2.13. Would you recommend the use of DOIs to others performing similar activities?
Why?
- 2.14. Did you have any issues with the registration process (data preparation, registration itself, support from the Secretariat)?

Website and other resources

- 2.15. Does the project have a web presence? If yes, please provide the URL
- 2.16. Did you publish any paper with the results of the project? If yes, please provide citation or DOI
- 2.17. Did you deposit any datasets with the results of the project? If yes, please provide URL or DOI

3. Recommendations and expectations

- 3.1. Do you have any recommendations for the use of DOIs?
- 3.2. Do you have any expectation of new services to be provided through the Global Information System or any ideas for the improvement of the current services and tools?
