

## Developing a monitoring and evaluation plan for food security and agriculture programmes

©FAO/Giulio Napolitano

This course has the objective to support countries and regions in planning the information needs for monitoring, pilotage and evaluation during the life of their Food and Nutrition Security and Agriculture programmes. The course, also, offers practical guidance on building an M&E system which is feasible, practical and relevant to the programme's needs.

Up to 3.5 hours of learning, depending on learning needs

Available in English

### You will learn about

- Basic M&E concepts
- Choosing what to monitor
- Monitoring and evaluation indicators
- Defining your indicators
- Planning for M&E activities during the programme's lifetime

## Who is the course for?

The target audience for this course includes: professionals involved in managing a programme, designing an M&E system, leading research or implementing M&E activities, and all those who wish to have concrete guidance on how to apply M&E methods to their programmes.

## Key partners

This course was produced under the umbrella of the EU-FAO Programme on "Improved Global Governance for Hunger Reduction", funded by the European Union (EU) and implemented by the Food and Agriculture Organization of the United Nations (FAO).

Contributing organizations:

- Technical Centre for Agricultural and Rural Cooperation (CTA)
- Inter-American Institute for Cooperation on Agriculture (IICA)
- Quadrant Conseil
