

## Training on the New CountrySTAT System Dakar, Senegal, 14-17 November 2016

### PROGRAM

The FAO Statistics Division is organizing a four-day training workshop for representatives from French speaking countries.

The objective of the workshop is to provide participants with basic training on the use of the New CountrySTAT based on the new FENIX technology and to promote the new system for comparing official statistics due to use International coding systems, and standardized metadata.

All this makes the data available online optimal and reliable. In particular, the workshop will focus on:

- an overview of the New CountrySTAT system based on FENIX
- international coding systems (HS, CPC, DAC, etc.)
- the importance of using metadata
- the CMS - content management tool
- the data management tool
- viewing data online through graphs
- online data filtering
- data analysis: thematic modules

The workshop will therefore provide a platform for participants to learn the new system and further promote the use of CountrySTAT.
