APPENDIX D

The Russian Federation disassociates from consensus on the endorsement of MYPOW with the following observations. The proposed MYPOW is overambitious. It does not adequately reduce CFS workstreams to ensure manageable workload during intersessional period, as previously decided by CFS Plenary (CFS 2018/45/3), FAO Council (CL 155/REP, para 24 f) and FAO Conference (C2017/REP, para 50 h). The draft MYPOW is unbalanced. The CFS relevant workstreams will be financed in the amount of USD 100 000 in average at best, while the budget of USD 700 000 is estimated for the thematic workstream «Gender equality and women's empowerment in the context of food security and nutrition» - the topic, which is supposed to duplicate the work of other specialized bodies of the UN system. Going beyond the competence assigned for the UN agencies and disproportionate emphasis on the border-line issues risks to undermine the effectiveness of their work.
