

**Project Evaluation Series**

**Terminal evaluation of project “Climate  
change adaptation of the Eastern Caribbean  
fisheries sector” (CC4FISH)**

**Project code: GCP/SLC/202/SCF  
GEF ID: 5667**

**Annex 7. Other projects in collaboration with, or building onto, CC4FISH**

Listed in Table b/ appendix 6 MTR report: funding sourced since CC4Fish inception for CC4Fish project countries

Listed in Table c/ appendix 6 MTR: Pipeline

Listed in Table d/ appendix 6 MTR report: Resource mobilisation for non-CC4FISH project Caribbean countries for projects that build on by CC4FISH activities and results

Red: clarifications and updates brought during the TE

Country	Name of project/fund	Activities	CC4FISH linkages	Output CC4FISH	Amount in USD	Status	Year	Co-financing for CC4FISH (USD)
Dominica	SFERA Emergency relief for fisheries (=FAO SFERA) funding	Fishing gear fishers and female fish vendors	Equipment determined by PDNA by Regional project coordinator and support and information from NPC and National Focal point	2.1.2	100 000 (30 000 for consultant/ 70 000 for equipment)	Closed	2018	100 000
St Vincent and the Grenadines	Fishery Improvement Project (Regular Program SLC)	Fishery Improvement Project Assessment of pelagic fishery in SVG	Builds onto work of CC4FISH in Grenada and is supported by NPC and National Focal Point. Strong coordination role of RPC Stakeholder validation workshop for report and plan forward planned when COVID-19 hit	2.1.2	55 000 (regular program)	Assessment carried out; now USD 1 million in follow up in pipeline)	2019/2020	55 000
SKN, Dominica and Barbados	MDF fund: Project on Climate Change and Poverty Nexus for Enhancing Resilient Fisheries Livelihoods and Food security in Barbados, Dominica and St. Kitts and Nevis (FAO HQ funding)	SP CANARI: Value chain assessments for improving climate resilience	Funds acquired by RPC. Build out of CC4FISH, supported by NPCs and NPCs where applicable.	2.1.2	35 000	Assessments carried out, some follow up funds from CC4FISH and partly through project Sustainable Food systems and building resilience food systems (expect follow up of at least 40k)	2019/2020	35 000
SKN, Dominica and Barbados	MDF fund: Project on Climate Change and Poverty Nexus for	SP CERMES: Poverty assessment: Better understanding	Funds acquired by RPC. RPC coordinates and guides progress and outputs and ensures linkages with CC4FISH (e.g. through incorporating	1.1.1	135 000	In progress	2019-2021	135 000

Country	Name of project/fund	Activities	CC4FISH linkages	Output CC4FISH	Amount in USD	Status	Year	Co-financing for CC4FISH (USD)
	Enhancing Resilient Fisheries Livelihoods and Food security in Barbados, Dominica and St. Kitts and Nevis (FAO HQ funds)	of the poverty and climate change vulnerabilities on SSF communities and gaps in the mechanisms to address them; Design and run a capacity building course to effectively address the climate change and poverty nexus, through strengthening resilient livelihoods	CC4FISH work in the online course)					
SKN and Barbados	MDF fund: Project on Climate Change and Poverty Nexus for Enhancing Resilient Fisheries Livelihoods and Food security in Barbados, Dominica and St. Kitts and Nevis (FAO HQ funds)	SP: Blue Green Initiative Fish silage project (looking into feasibility of using fish waste for animal feed)	Funds acquired by RPC. Austin Stankus (aquaculture expert consultant CC4FISH) and LTO of CC4FISH leaders on project. CC4FISH funds report	2.1.2	18 000	Finished but follow up funds of 70k (regular program) new LOA CARDI	2019-2020	18 000
SKN, Dominica, SVG and Trinidad and Tobago	MDF fund: Project on Climate Change and Poverty Nexus for	Consultancy: legal assessment for third party	Funds acquired by RPC. Co-funding (most) by CC4FISH	2.1.2	65 000	Assessment is finished but follow up can start when countries wish to follow up (we	<i>[no date in MTR table]</i>	65 000

Country	Name of project/fund	Activities	CC4FISH linkages	Output CC4FISH	Amount in USD	Status	Year	Co-financing for CC4FISH (USD)
	Enhancing Resilient Fisheries Livelihoods and Food security in Barbados, Dominica and St. Kitts and Nevis (FAO HQ funds)	fishing vessel insurance				send official letters asking for them to express follow up)		
Regional	MDF fund: Nationally Determined Contributions workshop (FAO HQ funds)	Development and organization of a regional workshop "Regional NDC-SDG Dialogue in the Caribbean Integrating climate-resilient fisheries and coastal community priorities into post-2020 climate action and leveraging SDG co-benefits for the rural poor and Vulnerable"	RPC supported development, content and presented. Project assistant supported travel and logistical arrangements. CC4FISH funded 14k. All CC4FISH country NFPs were invited as well as some of the regional partners.	3.1.1	100 000 MTR: CC4FISH made both in-kind and cash contributions	Finished	2019	100 000
SLU	NORAD project (Norwegian funding, lead by HQ)	Work on seamoss and value chains	Funds mobilized after discussions with RPC. Builds onto work of CC4FISH	2.1.2/2.2.2	100 000 MTR: CC4FISH made in-kind contributions	Finished	2019/2020	100 000
SLU	NORAD project (Norwegian)	Value chains	Follow up from previous work but only on value chains. Workplan developed with RPC	2.1.2	150 000 MTR:	ongoing	2020/2021	150 000

Country	Name of project/fund	Activities	CC4FISH linkages	Output CC4FISH	Amount in USD	Status	Year	Co-financing for CC4FISH (USD)
	funding, lead by HQ)				CC4FISH made in-kind contributions			
SLU	NORAD project (Norwegian funding, lead by HQ)	GCF proposal	GCF proposal builds onto work carried out by CC4FISH (e.g. Vulnerability and Capacity Assessments, and aquaculture)	1.1.1 and 2.2.1/2.2.2	10 million MTR: CC4FISH made in-kind contributions	Project is advanced state of internal FAO approval process	2021	10 000 000
SLU	TCP project "Assistance for the development of the National Policy on Fisheries" TCP/STL/3601	Project to develop a Fisheries Policy in SLU	CC4FISH has supported the formulation of the TCP proposal and the stakeholders consultations subsequent to the development of the Fisheries Policy in SLU and will use Fisheries Policy to develop the FMP  The policy development was co-financed by NORAD project/Patrick McConney contracted, while the TCP hired the international policy consultant	3.1.2	60 000 MTR: CC4FISH made both in-kind and cash contributions	Ongoing	2019-2021	60 000
Barbados	Project on Climate Change and Poverty Nexus for Enhancing Resilient Fisheries Livelihoods and Food security in Barbados, Dominica and St. Kitts and Nevis(FAO HQ funding)	Fishery Improvement Project Assessment of pelagic fishery in Barbados	Builds onto work of CC4FISH in Grenada RPC coordinates project and guides consultants In collaboration with UNCTAD and DOALOS (they funded 20k) Stakeholder validation workshop has been carried out in March 2020.	2.1.2	30 000 MTR: CC4FISH is making an in-kind contribution 16 000 inflow TSS to CC4FISH 25 000 to develop Business Plan for the tuna fishery in Barbados	Assessment carried out and stakeholder meeting; now USD 400 000 in pipeline forgivable loan	Finished end 2020 2021	30 000 25 000
SKN, Grenada, Barbados	Building effective resilience for	Building effective value chains and	Activities included and developed through sharing of information of CC4FISH.	2.1.2/2.2.1/2.2.2	600 000 (but 40 000 for fisheries in the four countries)	Ongoing	2020-2022 (applied for extension)	40 000

Country	Name of project/fund	Activities	CC4FISH linkages	Output CC4FISH	Amount in USD	Status	Year	Co-financing for CC4FISH (USD)
and Antigua and Barbuda	human security in the Caribbean	aquaculture in the Caribbean	Building directly on to Vulnerability and capacity assessment outcomes as well as Value chain assessments carried out under CC4FISH/MDF		MTR: CC4FISH made both in-kind and cash contributions			
SLU and Grenada	Support seamoss farmers organizations (EU funding)	4ACP Farmers organizations for Africa, Caribbean, Pacific	Strengthening farmers organizations (including seamoss farmer organizations)	2.2	Total project 3 million	In progress (but more in 2022)	2021-2022	50 000
The Bahamas	Improving resilience and rebuilding of the fisheries sector in the Bahamas	Rebuilding of the fisheries sector in two most affected islands	Proposal: build on the Post-Disaster Damage and Needs assessment carried out by RPC (and two colleagues from HQ) (PDNA assessment was built on training carried out under CC4FISH)	2.1.2/3.1.1	400 000	In progress	2019-2021	400 000
Grenada, SKN, Antigua and Barbuda and Trinidad and Tobago	Increasing the contribution of aquaculture to resilience, food security and wellbeing in the Caribbean	Development of aquaculture in the four CC4FISH countries	<b>Amexcit.</b> Builds onto CC4FISH work in these four countries and developed by the two Aquaculture fisheries experts of CC4FISH with support from RPC and LTO	2.2.1/2.2.2.	715 000 MTR: CC4FISH is making an in-kind contribution and may provide cash depending on timeframe	approved	2021-2023	716 000
Grenada	Blue Economy fisheries sector development	Further development of the PPP in Grenada to support the private sector, fisherfolk organizations and governments to improve tuna fisheries development	RPC was technical supervisor of the project proposal to the IDB Blue Economy cluster support. Ensured it builds on to the work of CC4FISH. This was approved on 3 December 2022	2.1.2	400 000	Approved	2022-2023	400 000

**Additional information:**

Listed in MTR Table c/: 4 projects in total (1 above) because the potential funder CDB withdrew.

Regarding “Building effective value chains and aquaculture in the Caribbean with specific focus on empowering women and youth”: the funders withdrew.

Regarding Improving resilience to climate change of the fisheries sector through improvements in data collection and statistics - Grenada, Dominica, SVG and T and T - Improve data collection and statistics to improve fisheries management, climate change resilience and value traceability (311) USD 120 000.

- REBYC II LAC (EP/GLOF/201/GEF): finance Suriname’s participation to the regional training on statistics and post-disaster assesement held in TT in January – support to the establishment of Calipseo in Suriname : CC4FISH built onto work financed by Rebyc in T and T (so CC4FISH and Rebyc financed improved data collection and statistics in TT).
- CLME+ (UNJP/RLA/217/OPS): support for the analysis of statistical data for stock assessments in Suriname and TT. Same as above.
- JPN 198 (GCP/INT/228/JPN) : support to the establishment of Calipseo in the Fisheries Division in TT. Same as above.
- WECACF-FIRMS phase 3 (GCP/SLC/020/EC): financial support to run the WECAFC-FIRMS task force which enabled the identification and coordination of activities needed for fisheries data and statistics in the projects mentioned above, including CC4Fish.

Listed in Table d/: 4 projects in total (2 above) because (i) OneSkip still included but under IDB project, (ii) SVC4SIDS funder withdrew.

Regarding the India – \_UN Development Partnership Fund for building resilience after COVID-19 - Support fisheries value chains in Grenada (USD 113 400) which was listed in Table b: The India project was not funded by project after all. We prepared (together with the other UN agencies) the concept note and Grenada submitted it to India but at the end the donor country did not provide the funding.
