

Raising awareness on the responsible use of antibiotics in livestock

© FAO/Lorenzo Catena

This course aims to raise awareness on the responsible use of antibiotics in livestock. It describes the consequences of uninformed and inappropriate use of antibiotics in livestock production, explains what antibiotic resistance is, and how to use antibiotics responsibly.

 1 hour

You will learn about

- Why we should care about antibiotic resistance.
- Why we should use antibiotics responsibly in animals.
- How we should deal with animal diseases.
- What global initiatives can help to tackle antibiotic resistance.
