Food allergies – Leaving no one behind

Corrigendum

Updated on 21 February 2022

The following corrections were made to the PDF after it went to print.

Page	Location	Text in printed PDF	Text in corrected PDF
Page iii	Line 9 to 12	International standards exist, and Codex Alimentarius requires its members to comply with those, however, the food allergens recognized by Codex may not necessarily cover the whole list of food allergens that have an impact on different populations.	International standards have been developed by the Codex Alimentarius which include a list of allergens that should always be included on the label; however, the food allergens recognized by Codex may not necessarily cover the whole list of food allergens that have an impact on different populations.
